CIRCULAR (SCHOLARSHIP)

Subject:-Attention of B.Tech. students desirous to undertake research internship for the duration of 10 weeks at U.S. Universities in the summer of 2018, is invited towards the S.N. Bose Programme.

The Science & Engineering Research Board (SERB), Department of Science and Technology (DST), Govt. of India, the Indo-U.S. Science and Technology Forum (IUSSTF) and WIN Step Forward have partnered to support a dynamic and transformative student exchange program between premier institutions in India and the United States. The program is named in honor of Satyendra Nath Bose (1894 – 1974), a visionary Indian physicist best known for his work on quantum mechanics in the early 1920s.

The S.N. Bose Scholars Program provides an opportunity to Indian students (currently enrolled in a Bachelors or Masters' degree in Atmospheric and Earth Sciences; Chemical Sciences; Engineering Sciences; Mathematical and Computational Sciences; and Physical Sciences) to undertake research at the various US Universities in the summer of 2018 for a period of 10-12 weeks.

Students have to be nominated by their HoDs. 2 meritorious students are to be nominated from each department i.e. 2 applications per stream, per department, per institute. For this purpose, for example, the usual two years Masters in physics and Integrated Masters in Physics may be counted as 2 different streams and 2 different applications.

Respective Head of Departments are requested to send the nominations to aracademic@dtu.ac.in on or before October 15, 2017.
