CIRCULAR

Subject: Inter Slot shifting in B.Tech. classes.

The University has introduced the slot system in time- table of different semester's w.e.f. the academic year 2018-2019. This system has been introduced so that a senior student may re-register for junior semester class in such a way that his/ her regular semester classes are not clashing with his/her re-registered subject classes of previous semesters.

For Example Slot Y or Slot Z are kept vacant for 3rd semester B.Tech. Students.

It has been reported to the undersigned that some faculty members have shifted their classes in slot Y or slot Z on requests from other students on their own. As a result the re-registered students are not able to attend classes of their pending subjects because of the resulting clashes in time table due to Time Table Shifting.

All the B.Tech. students of who have been re-registered in B.Tech. 1st, 3rd & 5th semester courses with their current semester. These students will have to attend classes with regular batch and their complete assessment will be done afresh. They need to attend all classes and must have minimum required attendance for appearing in End-Sem Examinations.

All the students of B.Tech. program must have a minimum attendance of 75% of the total number of classes including lectures, tutorials and practical, held in a subject in order to eligible to appear at the End-Term Examination for that subject.

The HoD's are advised to ensure that the faculty members do not shift their classes.

(Prof. Madhusudan Singh)
Dean Academic (UG)
