DELHI TECHNOLOGICAL UNIVERSITY
Established by Govt. of Delhi vide Act 6 of 2009
(Formerly Delhi College of Engineering)

Prof. S. Indu
Vice-Chancellor

Message

It is my immense pleasure to announce that Delhi Technological University is commencing Ph.D. admissions Session: January, 2024.

Delhi Technological University is globally known for outstanding education, research and innovations. The University currently offers various interdisciplinary and industry relevant programmes in science, technology, management and allied areas at undergraduate, postgraduate and doctoral levels.

Students admitted to DTU, through their dedication, discipline and steadfastness can go on to become professionals and impactful leaders. DTU provides them an environment to shape their talent as DTU ensures that every step of a student's journey is designed keeping in mind the holistic development. This is coupled with a diverse range of extra-curricular activities throughout the year, which help students develop various skills to facilitate them throughout their lives.

Over the years, DTU has established itself as the University of unshakable repute. Hence, getting admission in DTU has scaled great heights on the national and international stages, and continue to make us proud. The Conjoined efforts of relentless students, faculty, administration and the staff have preserved and exceptional environment in DTU that allows persistent exchange of information and upholds the unmatched excellence associated with this University for eight decades.

We aim at nurturing the students holistically and endeavour to foster a culture in which virtues and skills are instilled in them, along with a concern for society and its wellbeing.

I send my best wishes to the candidates applying for admissions to the Delhi Technological University.

Shahbad Daulatpur, Bawana Road, Delhi – 110042, INDIA

About DELHI TECHNOLOGICAL UNIVERSITY

Delhi Technological University (Formerly known as Delhi College of Engineering) is one of the most well-known engineering institutions of India, with over 82 years of glorious tradition behind it. A non-affiliating, teaching and research University, DTU is poised to create an environment of synergetic partnership between academia and industry. It aims to cause a major departure from the conventional system of education and research and aspires to imbibe a culture of scientific research in its technology disciplines and technology temper in its scientific research and education by providing a seamless environment for integration of science and engineering. The University also endeavours to provide the thrill of a corporate R&D environment with a planned focus on industrially relevant projects and technology incubation. DTU has consistently been ranked among the top engineering institutions of the country in reputed surveys.

Currently the University offers 17 Full time UG Programmes, 25 Full Time and Part Time M. Tech. Programmes, 04 Full time MBA programmes, 02 Executive MBA Weekend programme, 04 M.Sc. programmes, M.Design, M.A. Economics Programme and Ph.D. programme in various disciplines. Further, teachers from various engineering colleges also join University for the doctoral programmes under Quality Improvement Programme (QIP) and AICTE Doctoral Fellowship (ADF). The University on an average admits 3200 candidates for the Undergraduate Programmes and about 1200 candidates for different Postgraduate programmes and Doctoral programmes every year.

The University is located in about 163.87 acres of natural flora and fauna. DTU is one of the greenest residential campuses in the country. It has added the dimension of research and caused innovations in plenty, which has received high national and international acclaim. The University has the desired autonomy to excel and shape itself as a world class Technological University.

More information about DTU can be accessed at www.dtu.ac.in
VISION

To be a world class university through education, innovation and research for the service of humanity.

MISSION

To establish centres of excellence in emerging areas of science, engineering, technology, management and allied areas.

To foster an ecosystem for incubation, product development, transfer of technology and entrepreneurship.

To create environment of collaboration, experimentation, imagination and creativity.

To develop human potential with analytical abilities, ethics and integrity.

To provide environment friendly, reasonable and sustainable solutions for local & global needs.
I. Ranking and Rewards

The University is accredited with 'A' grade by NAAC (National Assessment and Accreditation Council) and has been accorded 12-B status by the University Grants Commission (UGC). Several of its UG engineering programs are also accredited by the National Board of Accreditation (NBA). The university has also been consistently ranked among best 10 engineering institutions as per the various independent Surveys on Best Engineering Institutions of the country. The University has got 1st position as per Times Engineering Ranking 2022. The University has been ranked 7th by India Today's best government engineering colleges ranking 2021. The 2023 NIRF rankings placed DTU at the 29th position among the engineering institutions and at 40th in the categories of universities. DTU has been placed at 601-800 bracket in the Times Higher Education World University Ranking 2023.

II. Campus and Infrastructure

DTU has 164 acres of a lush green, tech-savvy main campus, consisting of 16 academic departments, research centers, and residences for students, faculty, and staff. At present the university has around 10,000 students in its undergraduate, postgraduate, and Ph. D programs. DTU has an EDUSAT Studio utilized for recording of lectures, events, and talks. Besides the main campus, the university has another campus in East Delhi, where some of the M. B. A programmes, B. A (Hons.) Economics and B.B.A programmes are offered. The newly established East Delhi Campus of DTU has been functional since the 2017-18 academic session. It is located at Vivek Vihar, Phase II, Delhi. This campus endeavours to provide quality education, research, and innovation in the emerging areas of management, relevant to industry and society.

III. Computer Centre

DTU has a well-equipped centralized computer centre to cater to the needs of students and faculty in the university. It is housed, in a magnificent state-of-the-art building having specialized laboratories to provide variety of platforms and computing environment for UG, PG and research students. The centre possesses a number of servers and over 275 Dell intel core i5 computer systems. In addition, the centre has more than 15 servers hosting different applications such as websites & portals, SPSS, Mathematica, MatLab, DNS, LDAP, proxy, Email services, Network Monitoring System (NMS) etc. and 4 SUN CAD workstations meant for use by UG/PG/PhD students for their projects and research work. The centre is fully networked through high-end intelligent Avaya & CISCO switches, and possesses round the clock 10 Gbps NKN leased line, ISDN and a 200 Mbps leased line in a different pipe for the LAN wired & Wi-Fi connectivity for the academic, administrative and hostel blocks of the campus, with internet facilities on all the nodes. It also has the latest versions of compilers, scientific, technical and engineering software, training kits etc. for the students of different branches of engineering.

IV. Library and Knowledge Centre

Delhi Technological University library, with a collection of more than 2,00,000 text and reference books and a large number of e-journals, e-books, manuscripts in digital format, is one of the highly rich engineering libraries in the country. Library provides remote access facility to all its readers by using cloud based remote access software. The library also helps researchers to maintain proper integrity and ethics and provides the facility of similarity check to avoid instances of plagiarism. It has a very active presence on Facebook. Various current awareness services and user information literacy programs are continually organized throughout the year. The library building is a four storied, aesthetically designed, centrally air-conditioned structure with a
seating capacity of 400. Library is updated regularly by way of adding new literature in the form of text books, reference books, reports, proceedings, abstracts & indexes, encyclopaedias, data books, standards (National & International), Journals & database on CD-ROM.

V. Hostel

Hostel life is one of the most enjoyable and memorable time of one's life. There are eleven boys' hostels and three girl's hostels in DTU, besides, one separate hostel for international students (boys). Each hostel in the campus gives each individual ample opportunity to develop various qualities as each hostel is equipped with recreation room, reading room, mess and gymnasium. Additionally, every hostel subscribes to the latest magazines and newspapers for the residents. The hostels are connected to the campus via the campus wide wi-fi network and LAN which enables the residents to browse the internet and access the online library resources for their academic and research related work. The information of all available accommodation will be posted on the University website. However, limited seats could be provided inside the University premises. In addition, the mess facility at the University can be availed by all the students.

VI. Centre for Extension & Field Outreach

Centre for Extension and Field Outreach was established in DTU in the year 2018. The various activities/ program performed by the Centre is to sensitize the students to develop social values, widespread their responsibilities and knowledge in societal issues and problems by making them to involve with the community people. DTU is a Participating Institute under under "Unnat Bharat Abhiyan"- a Project of Ministry of HRD, Govt. of India and adopted five villages and are conducting classes in their schools. Directorate of Education, Govt. of NCT of Delhi awarded a Project "Youth for Education" and has launched "Desh Ke Mentor", which is one of the largest mentoring program in school education. Centre has also started a certificate course titled as "Basic Computer Course" Under Lab on Wheels (LOW) Scheme for the candidates from the Government Schools of NCT of Delhi or from society. Centre at DTU is coordinating with Delhi Police conducting Skill development program through one-month basic computer training to Juveniles in conflict with law/ weaker section in Rohini. Centre is regularly organizing Seminars/ online webinars/ workshops/ Awareness programs etc and is working towards increasing productivity, enhancing skills and abilities, focusing on growth and helping people to work on their own future development.

VII. Innovation and Incubation Foundation (DTU-IIF)

DTU-IIF is a Technology Business Incubator (TBI) established in 2016 as a non-profit section 8 company. Currently, this TBI is supported by the Government of Delhi and Delhi Technological University. DTU-IIF helps start-up companies and individual entrepreneurs to develop their business ideas by providing a range of services including co-working office space, mentoring support, funding support with venture capital financing, and other supports & resources they need, all under one roof. During last five years, IIF provided 60 lakh of funds to 40 start-up companies. Also, DTU-IIF promotes the culture of innovation and Entrepreneurship by organizing various webinars/workshops/Hackathons, etc. The Business Review Committee screens the new ideas and recommends incubation at DTU-IIF. The Finance Review Committee recommends the investment of Rs. 7.5 lakh on an equity basis upto 10%. Also, DTU-IIF provides pre-seed support of Rs. 50,000/- to develop ideas.
VIII. Sports and Other Outdoor Activities

The students of DTU are provided with excellent facilities for indoor and outdoor games. DTU has 4 x 400 m racing track, fields for football, hockey, cricket, courts for volleyball, basketball, tennis, badminton, along with facilities for indoor games. A well-equipped gymnasium is also available in the campus in addition to gym facilities in each hostel. The university has appointed coaches in almost all the games to coach the students and prepare university teams. Students are encouraged to participate in various sporting events and tournaments held in, and around, NCR of Delhi. From academic year 2018-19, as per the revised curriculum, the university offers foundation electives to the students of first year and second year and in these sports have big share of electives.

A large number of bright and capable scholars, having graduated from the Institute, have distinguished themselves by means of their extraordinary achievements in their chosen professions and by their contributions to the society at large.

IX. DCE-DTU Alumni Network

DCE-DTU Alumni are serving leadership positions in many of the best-known companies in India and abroad, in marketing, finance, human resources, information technology, research & analytics, innovation & entrepreneurship. And the worldwide network of illustrious alumni includes world-known personalities like Prof. Vinod Dham (Father of the Pentium Chip), Dr. Raj Soin (Founder, CEO of Soin, and LLC), Prof. D. Yogir Goswami (Inventor, Author, Entrepreneur and Educator), Dr. Durga Das Aggarwal (President, CEO Piping Technology & Products, Inc), Mr. Vijay Shekhar Sharma, (Founder of Paytm), Sh. Karnal Singh (Former Chief of Enforcement Directorate), Sh. Arun Goyal (Member-CERC & Former Secretary, Cabinet Secretariat).

Alumni have been traditionally contributing generously towards placement opportunities, sponsorships/ Fellowship programs and infrastructural developments of their alma mater. Donations for Raj Soin Hall by Dr. Soin, Clean Energy Research Centre establishment by Prof. Yogi Goswami, and several scholarships for the students of DTU have shown the dedication of the alumni for the betterment of their alma mater.

X. Events and Festivals

The university organizes annual cultural, literary, sports and technical festivals. These festivals not just provide an opportunity to the students to connect with the professional world, but also display their creative and technical skills in several interesting events and activities organized during the fests. The ENGIFEST, one of the most well attended student’s cultural event in northern India and the YUVAAN, the literary Fest, is annual cultural extravaganza of the university and offers a good mix of literary, cultural, and entertainment events. The INVICTUS is annual technical festival of the university where all technical societies of the university host various technical activities and competition. The AAHVAAN is the annual sports fest organized by DTU sports council.

XI. Medical Facilities

DTU has a well-equipped health care centre. The medical practitioners are available to the students requiring medical attention. The healthcare centre has specialized medical practitioners including ENT, dental care, Physiotherapy, Nutrition, Gynaecology and Obstetrics etc. Further, medical camps are also being organized by the University on regular basis. In addition, Ambulance facility is also available in case of emergency. The University has also tie-ups with the major hospitals of Delhi for emergency cases.

More information about DTU can be accessed at www.dtu.ac.in.
1. RESEARCH FACILITIES AT DTU

All the academic departments of the university have well-equipped research laboratories and workshop facilities. In addition, there are a number of central facilities such as Central Workshop, Solar Energy Centre, Central Instrumentation, Centres for Advanced Studies & Research in Automotive Engineering, TIFAC-CORE, Central Library and Computer Centre. The Central Library has more than 2,00,000 books, a large collection of back volumes of periodicals, standard specifications and other literature. It subscribes more than 39,924 current journals in Science, Engineering, Humanities and Social Sciences as e-resources. DTU has a well-equipped centralized Computer Centre which provides state of art high-end networked computing facilities to students and staff.

The University has many research collaborations with leading universities and Institutes in Korea, Singapore, France, Florida USA, Africa and China. As part of these collaborations, the students get opportunities to carry out joint research projects with faculty and students from these institutions.

The location of DTU in close proximity to several leading R&D Centres namely NPL, INMAS, FICCI, CSIR, etc. and other major industrial establishments which offers excellent opportunities to interact and plan research programmes and projects in collaboration.

To celebrate the individual’s excellence in research, the university offers Research Excellence Awards to researchers in three categories of awards annually, namely, Outstanding Research Awards, Premier Research Awards, and Commendable Research Awards. The awards are open to all the researchers of DTU.

2. STUDENTS AMENITIES AT DTU

The University has 11 Boys and 3 Girls hostels in the campus that can accommodate around 2700 students. Each hostel is an independent entity with its own mess facilities, recreation areas, etc. However, students are also permitted to have their own arrangements for accommodation outside campus.

Every hostel has its own common room and gymnasium. Additionally, every hostel subscribes to the latest magazines and newspapers for the residents. The hostels are connected to the campus via the campus wide wi-fi network and LAN which enables the residents to browse the internet and access the online library resources for their academic and research related work.

The Well-planned Students’ Welfare societies routinely organize several vibrant extracurricular events. These activities include Sports, Cultural programmes, technical festival and Social Service.

3. Ph.D. PROGRAMME

The University is inspired by talent and driven by innovations and is firmly committed to provide industry-relevant, socially-responsible manpower to meet the challenges of 21st Century. The vibrant culture of research and innovations in DTU campus inspires students from UG level onwards to engage in cutting edge technology development and discover the value and worth of the knowledge acquired by them during their studies.

The University offers Ph.D. programme in a wide range of areas in Engineering, Sciences and Humanities. The academic programme leading to the Ph.D. degree is broad-based and involves a course credit requirement and a research publications leading to the submission. Facilities for research work leading to the Ph.D. degree are available in Departments of Mechanical Engineering, Information Technology, Environmental Engineering, Electrical Engineering, Electronics & Communication Engineering, Humanities & USME, Design, Delhi School of Management, Computer Science & Engineering, Civil Engineering, Biotechnology, Applied Physics, Applied Mathematics,
Applied Chemistry, Chemical Engineering & Software Engineering.
DTU also offers Ph.D. Admissions under the AICTE QIP (Quality Improvement Program) and AICTE Doctoral Fellowship (ADF) scheme.

4. ADMISSION CATEGORIES
The applicant for admission to the Ph.D. programme shall be classified under any one of the following categories which will be decided and recommended by DRC/SRC.

4.1 Full-time Research student/Candidate
Full Time University Research student/candidate (With Fellowship or without Fellowship).

i. Full-Time students with DTU Fellowship admitted within the DTU Fellowship seat matrix. Further, DTU Fellowship beyond 03 years and up to 04 years, subject to acceptance/publication of one research paper as per specifications given in the DTU Ph.D. Ordinance. Furthermore, if a candidate who is admitted as Full Time research scholar with DTU Fellowship chooses to withdraw from the Ph.D. programme, due to ANY reason, the candidate shall be liable to refund the full amount of fellowship disbursed to him/her.

ii. Full-Time students without Fellowship can be admitted over and above DTU Fellowship seat matrix. The number of such seats will be based on suitability of candidates and availability of slots with prospective supervisors.

iii. Full Time Sponsored Research student/candidate - Fully financed by the Govt. / Semi-Government Organizations like QIP, CSIR-UGC NET, DAE, DST, DBT, NBHM, ICCR, ICAR, ICMR, GPAT, NDF, INSPIRE etc., Government/Private funded Research/Development organisations, Public Sector Undertaking, Educational Institution or a reputed industry etc. These seats with Fellowship from other agencies shall be over and above the seat matrix with University Fellowship.

iv. Full Time / Part Time Sponsored Research student/candidate nominated by the organization having MoU with the University, foreign students who apply through Ministry of Human Resource Development or under a Cultural Exchange Fellowship Programme by Government of India.

4.2 Part-Time Research student/candidate
i. Research student / Candidate working in other organizations having MoU with Delhi Technological University.

ii. Candidate employed in Educational Institutions, R&D organizations and Government Department, Public Sector Undertaking and Candidates from industry/companies of high repute and a medium sized enterprise along with standing commitment to the exemplary standards namely ISO/CMM or similar standard of respective area provided that the applicant possesses the minimum eligibility qualifications for the degree.

iii. Students with valid JRF may also be considered for admission in Part-Time Ph. D. Programme without fellowship.

4.3 Candidate/staff under R&D projects at DTU
Project staff under project sponsored by DST/UGC/any government agency, industry or centres established from grand in at from government or international agency at university.
44. Research student/Candidate working as a regular employee

Permanent academic staff of the Delhi Technological University (including the academic staff of erstwhile Delhi College of Engineering).

46. Industry/Working Professionals

DTU's Ph.D. Program for "Industry/Working Professionals" is another step in the direction of encouraging innovation driven doctoral research for professionals of high standing and competence in their disciplines. Committed professionals drawn from Industries, R&D organizations and Government Departments will be able to utilise this opportunity to fulfill their aspirations of pursuing Ph.D. in their preferred areas of excellence. This Ph.D. program will play an integral role in establishing long-lasting and fruitful ties between DTU and Industry professionals for pursuing high-value projects in the knowledge driven economy.

The Professional joining Ph.D. Programs at DTU will be able to update their knowledge and skills to grow and succeed in business environments. Exposure to relevant academic experiences and relationships will enhance the employability skills of the researchers. Further, Companies will be able to develop skilled human resources by training and supporting the next generation of researchers. Thus, their chances of thriving in the modern competitive market through innovation and knowledge exchange with university and research institutions will increase manifold.

Guidelines for Ph.D. Program for Industry/Working Professionals

i. Essential Qualifications:

<table>
<thead>
<tr>
<th>Broad Discipline</th>
<th>Eligibility criteria</th>
</tr>
</thead>
<tbody>
<tr>
<td>Engineering/Technology</td>
<td>1. Bachelor's / Master's in Engineering/Technology in relevant discipline or equivalent** degree with:</td>
</tr>
<tr>
<td></td>
<td>a) more than 05 years and less than 10 years work experience* CGPA of 7.0 on a 10-point scale or 70% marks</td>
</tr>
<tr>
<td></td>
<td>&quot;OR&quot;</td>
</tr>
<tr>
<td></td>
<td>b) more than 10 years and less than 15 years work experience* CGPA of 6.5 on a 10-point scale or 65% marks</td>
</tr>
<tr>
<td></td>
<td>&quot;OR&quot;</td>
</tr>
<tr>
<td></td>
<td>c) more than 15 years work experience* CGPA of 6.0 on a 10-point scale or 60 % marks</td>
</tr>
<tr>
<td></td>
<td>2. Credentials of the company/organization of the working professional applying for the program shall be assessed on the basis of following mandatory criteria:</td>
</tr>
<tr>
<td></td>
<td>a) The reputation of the companies (private or government or PSU's), Research Organizations, Ministries of Central and State Governments or Union Territories or Recognized Research Institutes or Public Sector Undertaking or Semi-Govt. or Autonomous or Statutory organizations/ institutions or Registered Companies or Industrial research and development organizations excluding academic institutions.</td>
</tr>
<tr>
<td></td>
<td>b) with standing commitment to the exemplary standard namely, ISO/CMM or similar standard of respective areas mandatory for any enterprise/company/industry/firm.</td>
</tr>
<tr>
<td></td>
<td>c) The candidate must have the working experience at least continuous 02 years in the respective organization/institution at the time of application along with the work experience indicated in Point (1) above.</td>
</tr>
<tr>
<td></td>
<td>A research proposal approved by the prospective supervisor must be submitted by the candidate at the time of the application.</td>
</tr>
</tbody>
</table>
"Work experience may include position in multiple organization(s), such candidate shall be working on industry oriented research problems.

** Equivalence of degree will be decided by the University.

*** For candidate applying with higher degree under this category of IWP, the eligibility as per point no. 5 Admission Eligibility.

II. For all the broad disciplines:

a) The candidate must meet the minimum eligibility criteria to be shortlisted for interview. In the absence of conversion of CGPA to percentage of marks (or vice versa) mentioned in the transcripts then the conversion formula of DTU will be applicable.

b) Candidates need to provide a 'NO OBJECTION' certificate issued from their company, stating it has no issues with the candidate pursuing Ph.D. under the proposed scheme "Ph.D. Program for Industry/Working Professionals".  

III. Desirable Qualifications:

Candidates having proven research capability and active participation record in devising/designing, product development, planning, executing, analysing, quality control, innovating, training, technical books/research paper publications/IPR/patents etc.

</tbody>
</table>
In addition to the above Discipline Specific Eligibility Criteria, the following admission guidelines are applicable to all the Disciplines/Departments:

1. Five percent (5%) relaxation in marks at the level of qualifying degree will be given PwD/SC/ST category students for determining the eligibility conditions to apply for Ph. D. admission.

2. Part-time applicants will be considered as per 4.2 and will be eligible if
   - the applicant possesses the minimum eligibility qualifications for the degree as given as per 5.
   - the applicant is in position to complete mandatory course requirements along with regular counterparts;
   - the applicant proves to the satisfaction of the University that his official duties permits him to devote sufficient time to research;
   - facilities for research are available at the applicant’s place of work in the chosen field of research or the applicant can spare sufficient time to pursue research in the Department of the Delhi Technological University on daily basis, residing in the vicinity of the University; and
   - he/she will be required to reside at the Delhi Technological University for a period of not less than 6 months during his admission period for the Ph.D. programme. (This condition of minimum residence will be automatically waived for candidates who are working in National Capital Region (NCR) of Delhi or in organisations/institutions located within a distance of 50 km from the Delhi Technological University).

3. The candidate seeking admission to Ph.D. programme as project fellow at Delhi Technological University may be given administrative clearance to seek admission on full time / part time basis subject to recommendations of the concerned Principal Investigator of the said project/centre and approval of the Vice Chancellor, if the candidate is selected in project as project fellow through proper selection. However, he/she must fulfil the minimum eligibility criteria. No relaxation will be given in entrance test.

4. Permanent academic staff of the Delhi Technological University (Including the academic staff of erstwhile Delhi College of Engineering) may be given administrative clearance to seek registration on part-time basis subject to recommendations of the concerned head of the department and approval of the Vice Chancellor. However, the applicant must fulfil minimum eligibility criteria. No relaxation will be given in entrance test, except for the special cases as given below at 6(3) in selection procedure.

6. SELECTION PROCEDURE

1. The short listing of applications possessing the minimum educational qualifications, for the purpose of entrance test & interview will be done by respective departments in consultation with the Ph.D. Coordinator nominated by the Vice-Chancellor. The entrance test will be of 90 minutes duration comprising of 60 multiple choice questions. It will be given a weightage of 70% in result preparation.

   The mode of examination shall be Computer Based Test at DTU Campus.

   The Departmental Research Committee (DRC) of the respective department shall conduct the interview and presentation which will be given weightage of 30%. The final selection will be recommended by University level committee after combining the 70% weightage to the
Entrance test and 30% weightage to the performance in the interview/viva voce for all department.

2 Entrance Test shall be waived only for UGC/CSIR/DST/DBT/ICMR/IARI-JRF full time fellowship holders, all foreign national students including, those sponsored by ICCR/MHRD/ MEA, and covered under MoU with Delhi Technological University, and faculty of the Delhi Technological University/ Industry working professional.

3 Moreover, Vice Chancellor may accord exemption from entrance test to the Academic/Non-Teaching staff of the Delhi Technological University and the officers of Govt. of India/Govt. of NCT of Delhi, considering the merit of each case. Such candidates shall have an experience of 15 years, age should not be less than 45 years and will be registered as Part Time candidate without DTU fellowship.

4 Students with JRF will also be exempted from the entrance test for admission in Part Time Ph.D. programme without fellowship.

5 All the shortlisted candidates on the basis of entrance test are required to come along with 7 to 8 slides of power point presentation on the topic of their interest during the interview.

6 RESERVATION OF SEATS

1. Reservation of seats with fellowships for applicants in each of the categories of the research scholars shall be in accordance with the policies of Govt. of NCT of Delhi. The percentage of reservations for various categories and relaxation in minimum eligibility conditions as applicable for the academic session 2023-24 is tabulated below.

<table>
<thead>
<tr>
<th>S. No.</th>
<th>Category</th>
<th>Seats reserved</th>
<th>Relaxation in Essential Qualification</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Scheduled Castes (SC)</td>
<td>15%</td>
<td>5%</td>
</tr>
<tr>
<td>2</td>
<td>Scheduled Tribes (ST)</td>
<td>7.5%</td>
<td>5%</td>
</tr>
<tr>
<td>3</td>
<td>OBC</td>
<td>27%</td>
<td>-</td>
</tr>
<tr>
<td>4</td>
<td>Persons with Disability</td>
<td>5% (Horizontal)</td>
<td>5%</td>
</tr>
<tr>
<td>5</td>
<td>EWS</td>
<td>10%</td>
<td>-</td>
</tr>
</tbody>
</table>

The reservations for persons with disabilities will be implemented department wise. Candidates seeking admission must fulfil the eligibility conditions as detailed earlier. The 5% reservation horizontally in seat matrix for persons with disability may be allocated as follows:

Against the seats identified for each disability, of which, one percent each shall be reserved for persons with benchmark disabilities under clauses (a), (b), and (c) and one percent, under clauses (d) and (e).

a. Blindness and low vision;
b. Deaf and hard of hearing;
c. Locomotor disability including cerebral palsy, leprosy cured, dwarfism, acid attack victims and muscular dystrophy;
d. Autism, intellectual disability, specific learning disability and mental illness;
e. Multiple disabilities from amongst persons under clauses (a) to (d) including deaf-blindness.

2 Physically handicapped applicants are permitted 5% marks or equivalent CGPA relaxation in eligibility requirement in line with the policies of Govt. of NCT of Delhi. They will not be allowed any other relaxation beyond this limit even if they belong to SC/ST category.
7. APPLICATION PROCESS

For admission to Ph.D. programme January 2024, all candidates need to register and fill the application ONLINE only by accessing www.dtu.ac.in from May 05, 2023, to June 09, 2023. The application process is completed only when a print out of the filled ONLINE application form is taken after paying online the registration fee. The candidate must bring a duly signed copy of the same along with two good quality photo (same as uploaded on online application form) affixed in the appropriate place on the form on the day of interview.

Candidates are requested to ensure that they must fulfill all such requirements before filling and applying for such programmes as their choices. Incomplete application due to any reason is liable for rejection by the University. In this regard, no communication will be entertained.

Application Fee

The registration fee of Rs. 1500/- for all categories is to be paid online through credit/debit card/net banking at the time of registration and choice filling. The registration shall not be complete without the payment of registration fee which is non-refundable and would not be adjusted towards any other fee. A convenience charge (online transaction) will be extra as per banking gateway on every online registration fee payment. If a candidate wishes to apply for admission in a programme offered by different departments then he/she will have to register separately in that department by paying separate online registration fee.

8. Information about Academic Departments

1. Department of Applied Chemistry

The department aims to provide state-of-art knowledge and practical skills to the UG and PG students in the diverse subjects of Chemistry, Chemical Engineering and Polymer Technology. The department runs a four-year course of B. Tech Chemical Engineering and postgraduate course in Chemistry and Polymer Technology. The Department has well-established laboratories in Applied Chemistry, Polymer Science and Chemical Technology. The department has undertaken and completed successfully large numbers of research and industry projects funded by AICTE, CSIR, UGC, DRDO, DST, BARC etc. Active national and international collaborations for R&D activities in different fields have been established by the department.

Research Areas: Chemistry including synthetic organic chemistry, Bio inorganic chemistry, Bio organic chemistry, Inorganic Chemistry, Material Chemistry, Green Chemistry Cheminformatics; Medicinal Chemistry; including gene delivery applications, Bio Materials, Drug Delivery systems; Polymer Science including fibre Technology, Conducting Polymers, Composites; Hydrogels: Chemical Engineering including Reaction engineering, Multi-phase reactor systems and design, Pollution abatement technology and gene. Advance materials development, Separation processes, Transport Phenomena, Pharmaceuticals sciences, Food Science.
2. Department of Applied Mathematics
The Department runs a four-year B. Tech. programme in Mathematics & Computing. This programme is an amalgamation of Mathematics with Computer Science and Financial Engineering. More than 25 research students are registered in the Department for Ph. D programme. The department has a team of committed faculty members from the disciplines of Pure Mathematics, Applied Mathematics, Computer Engineering, Statistics and Operation Research.

Research Areas: Information Theory, Graph Theory, Discrete Mathematics, Numerical Analysis, General Relativity and Cosmology, Optimization Technique, Complex Analysis, Mathematical Modelling, Approximation Theory, Stochastic Processes, Fuzzy logic and optimization, Algebra and Mathematical Finance, Natural Language Processing (NLP) and Artificial Intelligence (AI).

3. Department of Applied Physics
Applied Physics Department is providing cutting edge research, innovation and education in the emerging areas of science and technology. Department offers the undergraduate academic programme in Engineering Physics and Postgraduate program and M.Sc. Physics. The department has well-equipped state of art laboratories for undergraduate, postgraduate and Ph.D. students. Faculties of the department are actively involved in National and International collaborations for R & D activities.

4. Department of Biotechnology
The main objective of the department is to provide academic training and conduct research in the interdisciplinary areas of biotechnology with particular emphasis on extending the knowledge generated from these studies towards the development of technologies of commercial significance.

The Department is running postgraduate programmes in Bioinformatics and Industrial Biotechnology. Department of Biotechnology is also running research oriented Ph.D. programme. The department has undertaken sponsored projects funded by ICMR, CSIR, DST, UGC, etc. The
department has 10 state-of-the-art laboratories.

**Research Areas:** Aquaculture, Algal Biotechnology, Bioremediation, Biosensor, Functional Genomics, Genome informatics, Immunology, Immunostimulation, Molecular Neuroscience, Nano biotechnology, Neuro-oncology, Radiation Biology, Water Quality Management.

5. **Department of Civil Engineering**

The Department offers an undergraduate programme with an intake of about 120. The post graduate Programmes are offered in Hydraulics and Water Resource and Engineering, Structural Engineering, Environmental Engineering, and Geotechnical Engineering with the intake of about 90 students. The Department is well equipped with laboratories related to Structure, Concrete testing, Soil Mechanics, Highway Engineering, Experimental Stress Analysis, etc. The department lays greater emphasis on quality research of industrial design and development; Structural Engineering and Structural Dynamics.

6. **Department of Computer Science and Engineering**

The Department of Computer Science and Engineering endeavours to provide the thrill of a corporate and R&D environment with a planned focus on industrially relevant projects and technology incubation. The department has been offering two M.Tech level programs in Computer Science and Engineering and Artificial Intelligence. The department has elite faculties from premier Institutes. Department has developed state of the art laboratories in the various fields of Computer Engineering — Computer Architecture Lab, Network Lab, Web Designing Lab, Computation and Programming Lab, Operating System Lab, Artificial Intelligence Lab, Machine Learning Research Lab, Internet of Things Lab and many others. The department offers Doctoral (Ph.D) degree programs in diverse recent areas and a large number of problems have been taken up in those collaborations (like Samsung Research Lab etc.) with industries. The department has successfully fetched projects for National and International organizations.

7. **Delhi School of Management**

DSM aims at extending the seven-decade long legacy of Delhi College of Engineering by incubating and developing techno-managers, who
are adept at identifying pertinent and critical business problems and apply their technical skills and competencies in solving those issues. DSM offers MBA, MBA (Executive) and post-doctoral programs. It focuses on developing a strong research foundation to support the right attitude knowledge dissemination and training young minds to have a meaningful impact. It also includes outcome-based teaching, eloquent learning and exploring the contemporary areas of management.

**Research Areas:** Managerial themes such as E-Governance, Information Technology Management & Strategy, Marketing Management, Distribution and Retail Management, Organizational Behaviour & Human Resource Management, Corporate Governance and Ethics, Public Policy and Governance, Accounting and Finance (including but not limited to CEO succession, Accounting Theory, Accounting Standards, Directors’ Remuneration, Valuation of Human Resources and Intangibles), Portfolio Management, Mergers and Acquisition, Corporate Restructuring, Knowledge Management, International Business and Trade, Supply Chain Management and Operations Management.

8. **Department of Design**

DTU has started Department of Design from academic year 2018-19 with a vision of pursuing excellence in design thinking, design research and design practice for the betterment of society or the ecosystem we live in. The department of design would concentrate on developing a knowledge based design professionals who would become the problem solvers, and who can effectively use different design methodology. They would develop their innovative and aesthetic sensibilities into making a coherent and appropriate research. To develop centres of excellence in design research and practice, the department aspires to initiate Ph.D. programme as per the expertise and strength of the department.

9. **Department of Electrical Engineering**

The goal of the department is to provide quality education at undergraduate and post graduate levels and undertake cutting edge research in various areas of Electrical Engineering. The department also aims to develop active collaboration with various industries in the power sector. The department has an annual intake of 300 and 60 students in the B.Tech programmes in Electrical Engineering and B.Tech (Evening), respectively. At the post graduate level, the department is offering three M.Tech programmes in Control and Instrumentation, Power Systems and Power Electronics and Systems. In addition to the above the department offers regular Ph.D. programmes in various areas of specialization in Electrical Engineering. The department is involved in carrying out several sponsored R&D projects funded by national agencies like AICTE, DST etc. The department is establishing a new Centre of Excellence for Electrical Vehicle and Related Technologies (COE for EVRT) which is funded jointly by Govt. of NCT of Delhi and Delhi Technological University.
Research Areas: Power system optimization, AI Techniques, Modelling & Analysis of Electrical machines, Power Electronics & Drives, Intelligent control of nonlinear systems, FACTS, SSR, Voltage stability, Power quality improvement, Grid integration, Micro grid, Smart grid, Analog Signal processing (Linear and Nonlinear), Power system & control, System Engineering, Power System Analysis, Power electronics, Renewable energy, HVDC, Power systems restructuring, AI in Electricity market forecasting, Wind energy forecasting, Embedded system, Information security, Design of power supply, Electric traction systems, Energy conversion, IOT enabled electrical system, Charging infrastructure for EVs, Battery management system (BMS), Electric drives & control, EV retrofitting.

10. Department of Electronics and Communication Engineering

The vision of the department is to foster education, innovation and research in the frontline areas of Electronics and Communication Engineering for the sustainable growth of nation and service to the mankind. The department offers UG and PG programmes with annual intake of 240 students in the B. Tech programme in Electronics and Communication Engineering and the PG Programmes include M. Tech. in VLSI Design and Embedded Systems; Signal Processing and Digital Design; and Microwave and Optical Communication. The Department has focused attention on quality research and offers Ph. D. Programmes in the area of Electronics and Communication namely VLSI, DSP, Image Processing, Micro strip antenna design, Sensor Networks, Analog and digital system design. The Department also has active MoUs with academic institutions, research labs and the industrial sector to ensure that the students and faculty can get ample opportunities to work on real-world problems in collaboration through these MoUs.

11. Department of Environmental Engineering

The Department of Environmental Engineering have been offering M. Tech. in Environmental Engineering Degree and B. Tech in Environmental Engineering. The department conducts cutting-edge research, in developing the vital areas that address societal needs for environmentally sustainable life style and offer doctoral degree. In addition to this, the department also provides opportunity to working engineers for upgrading their qualification under Continuing Education Programme on part time basis for PG level. The departmental laboratories (Water Pollution, Air & Noise Pollution, Microbiology, GIS & Remote Sensing and Solid Waste) for teaching and research are among the best in the nation, providing opportunities for hands-on experience for all students.

Research Areas: Water Pollution, Waste Water Treatment, Environment
Modelling, Phytoremediation, Water Management, Air Pollution, Geoenvironmental Engineering, Solid Waste Management and Noise Pollution.

12 Department of Humanities
The Department of Humanities offers courses in Communication Skill, English, Economics and Accountancy for engineering and management students in an effort to train them for the global economic environment of the 21st Century. Besides giving them in-depth understanding of the labour market in which they are expected to work as well as of emerging employment trends among engineers, students are sensitized towards the specific technological needs of urban slums and rural areas and socio economic impact of engineering projects on the masses. The Department has competent faculty members with a high degree of excellence who keeps pace with the current developments in their fields of specialization for the fulfilment of its teaching and research goals. More than 20 research students are registered in the Department for Ph.D. programme.

Research Areas:
- **Economics:** Women Education and Inclusive Growth, Banking and finance, International Trade and other areas of economics.
- **English:** Contemporary Fiction, Cultural Studies, Diaspora Studies, Post-modern literature.

13 Department of Information Technology
The Department of Information Technology (IT) endeavors to provide the thrill of a corporate R&D environment with a planned focus on industrially relevant subjects, projects and technology incubation. The department offers an undergraduate (B. Tech.) course in Information Technology with an intake of 180 students every year. To meet the growing demands of present day technologies, the department has started M.Tech. degree in Information Systems in 2009-10 with an intake of 25. The curriculum of the department is designed in a way so as to provide the students with fundamental concepts and learning tools related to outcome based studies. The designed courses mainly emphasize on all basic core subjects such as data structure, operating systems, computer architecture and design, software development, networking, multimedia and graphics, analog and digital communications and computer communications, compiler design, theory of computation, etc. The department is also imparted a specialized subject knowledge on analysis and design of Information system, Information security systems, mobile computing, Internet of Things, cloud computing & security, soft computing, artificial intelligence, digital signal processing, computer vision and expert systems and web engineering. The department has developed the various state-of-the-art laboratories in the fields of Information Technology such as Computer Networks Lab, Web Engineering Lab, Programming Lab, Information and Security Lab, Biometric Research Lab, and many others.

Research Areas: Pattern Recognition, Computer Vision, Soft computing, Biometric security system, Neural Networks/ Deep learning, Fuzzy-Neural Networks, Natural Language Processing, Optimizations Techniques, Computer Vision, Big data Analytics Web Mining Internet Technologies, Data Mining Social

dynamics supported by Software like view-flex, CAD-CAM and I.e. engine design. Cad tab has Softwares like NX-LAD, NXCAM, AUTOCAD

Inventor, Catia, Techomatrix, Abus, ladino, NX-Nararan, Hyper mesh, hyper works, MDADAMS, Dynaform etc. The department has many research projects which are sponsored by different government organizations.

15. Department of Software Engineering

The Department of Software Engineering is dedicated to produce high quality graduates and skilled software engineers/professionals who can develop high quality and cost-effective software systems.

The Discipline of Software Engineering was introduced in the year 2009. The Department is currently running a B.Tech program in Software Engineering with an intake of 180, two M.Tech programs in Software Engineering and Data Science and offers Ph.D. in the Discipline of Computer Science and Software Engineering. All the software engineering programs are well designed keeping in view the industry demands. The programs are designed to build the analytical and practical capabilities of students.
in the design and development of the software and lays emphasis on following well defined and systematic approach for meeting the growing demands and requirements of the software industry. The department has state of art labs consistent with industrial standards which provide a hands-on experience to the students.

**Research Areas:** Empirical software engineering, machine learning, software quality and testing, search based software engineering, web engineering, opinion mining, social web, predictive modeling, machine learning and Deep learning for mobile healthcare, telemedicine, internet of things, cryptography.

### 16. USME

**USME (University School of Management and Entrepreneurship)** The Vision of the USME is to develop and nurture the spirit of management leadership and entrepreneurship for the good of society. The mission focuses on a portfolio of Programmes around entrepreneurship and cutting edge areas in management, and offers courses at the undergraduate and postgraduate levels: MBA, MBA-Business Analytics, MBA-Family Business and Entrepreneurship, MBA-Innovation Entrepreneurship and Venture Development, BA(H) Economics and BBA.

The focus of the department is to create a practice school in the area of management which is based on research and leads back to Programmes with a strong focus on entrepreneurship, employability, skill development and holistic, experiential learning.

**Research Areas:** The research focus of USME faculty covers diverse areas within management, economics and analytics. The management research focus is in the areas of work performance management, CRM and behavioural models. The research interests in the area of analytics are in optimization and multi-criterion decision models, quantitative models of innovation diffusion and analytics, social networks and collective intelligence. Faculty in economics stream have research focus in the area of international banking and market structures and health economics and capital markets.
17. Centre of Excellence for the Science of Happiness
The basic aim of this centre of excellence is to develop high standard of research in the area of happiness, mediation and value education with the main objective of stimulating the existing ecosystem of body, mind and energy with more general social objectives, corporate strategy-culture seamless integration or regional development to enhance happiness with scientific touch and ancient wisdom. This centre offers various Foundation elective and value added courses. This Centre also conducts various student and staff development programs. This centre is aligned with the new educational policy 2020 with the objective of holistic development of individuals.

18. Multidisciplinary Centre for Geoinformatics
Delhi Technological University has established a "Multidisciplinary Centre for Geoinformatics" with a view to promote different location-based technologies falling under the umbrella of Geospatial Science and Technologies/Geoinformatics. The Centre currently offers a PhD and a M.Tech program in Geoinformatics. Besides, it conducts several short-term courses/workshops and undertakes research projects awarded by DST, NMHS, ISRO etc and consultancies in the field of Geospatial sciences and Technologies.

The MCG has been established with the vision to be a world class multidisciplinary center for education, research and consultancy in the field of Geospatial Science and Technologies/Geoinformatics. The Centre aims to work in close coordination with Central / State Government Agencies and Industries in fulfilment of Government objectives, capacity building, research and consultancy.

19. Vinod Dham Centre of Excellence for Semiconductors and Microelectronics
The Vision of the Centre is to stimulate and create a robust R & D ecosystem that drives innovation, IP and start-ups in Semiconductor Technology and Microelectronics to cater to the Nation’s scientific demands; and serve as a Centre of National and Strategic importance. DTU has received a research donation from its alumnus, Vinod Dham, an Indian-American engineer, entrepreneur, venture capitalist and popularly known as the “Father of Pentium Chip” with a vision to enhance the research capabilities at DTU and foster the development of human resources in the field of semiconductors in line with the India Semiconductor Mission. VDCoE4SM will focus on imparting training & research in thrust areas of Semiconductor Technology and IC Manufacturing and will provide a platform to boost productivity, address emerging skill gaps and align training & research with industry needs in order to support Government of India’s vision to build a vibrant Semiconductor and Display Ecosystem enabling India’s emergence as a global hub for electronics manufacturing and design.

Research Area: The centre focuses on Semiconductor Device Modeling & Simulation-Analysis of Novel Device Structures- FinFETs, Nanowires, Tunnel FETs, HEMTs etc for Biomedical, Wireless, Sensor and Power Applications; Novel Material based Devices (III-V Compound Semiconductor, Spintronics, Opto-electronics), Memory Devices, Quantum and AI assisted novel materials; Development of Nanoparticles (Quantum Dots) for QLEDs, Solar Cell and Sensors; 2D nanostructures; Analog/Mixed Signal and Digital VLSI Design; System Design using FPGAs.
## 9. Fee and Documents to be submitted

The selected candidates will be required to pay the admission fee as per the details given below:

Original Documents to be submitted for verification at the time of Admission

a. Printed copy of online registration application

b. All the semesters Mark sheet/grade card / provisional / degree certificates beginning from first degree towards proof of qualification.

c. All the candidates will be required to produce the proof of having passed the qualifying degree with the required percentage of marks or CGPA latest by January 31, 2024, failing which their admission shall be cancelled.

d. Caste Certificate in the case of SC/ST/OBC-NCL candidates issued by the respective State Government as per format annexed at 2.

e. Authorised Doctor’s Certificate with disability descriptions in the case of Person with Disabled (PwD) candidates as per format annexed at 3.

f. Income Certificate of EWS candidates as per format annexed at 4.

g. NOC for part time candidates as per format annexed at 5.

h. Original UGC- JRF/NET/CSIR/ DAE-JEST or other fellowship award.

i. Project Co-ordinator’s certificate in the prescribed format

j. Date of Birth Proof

k. Two passport sized recent photographs

l. Copy of Cancelled Cheque

m. Copy of Adhaar Card

IMPORTANT INSTRUCTIONS

1. The candidates are advised to read each and every instruction given in this Information Brochure very carefully before applying Online.

2. All entries should be carefully made while applying online. DTU will not be responsible for wrong entries. Candidates shall be sole responsible for the correctness and authenticity of the information / documents provided in the online application.

3. Online application found incomplete in any form will be summarily rejected. No correspondence / communication will be entertained in this regard.

4. The last date for submission of online application shall not be extended. Accordingly, no request shall be entertained for accepting the application after the last date. Therefore, candidates are advised to submit their application well in advance and not to wait for the last moment.

5. The University has the right to cancel, at any stage, the admission for the candidate who is found admitted to a course to which he/she is not entitled, being unqualified or ineligible in accordance with the statues and regulations in force.

6. The list of the shortlisted candidates for entrance test, interview and finally selected for admissions to Ph.D. programme will be displayed on the DTU website: www.dtu.ac.in.

7. Candidates have to bring a valid photo identity card for the purpose of written test along with the printed application form.

8. There is no need to send any part of application form to DTU by post.

9. Incomplete applications are likely to be rejected.

10. No separate call letter will be dispatched.

11. The candidates are advised to make their own arrangements for travelling and lodging accordingly. They must come prepared for admission (in case they are selected) as per the schedule.

12. Candidate should check the University website for results / important announcements.

14. The candidates may contact faculty members/Head of the concerned academic departments for selecting their area of research work.

**Total: 205**

* Non availability of suitable candidate in the discipline of the Department(s), the seat may be converted in other discipline of the Department.

** fellowship sponsored by PayTM for COE-EVRT

Notes:
1. Reservation Policy: OBC-27%, SC-15%, ST-7.5%, EWS-10%, PWD: 5% Horizontal
2. This is tentative seat allocation. It may vary as per availability of seats in various departments. University reserves the right to allot a supervisor to the selected candidate in respective Departments.
ANNEXURE-2

AUTHORITIES WHO CAN ISSUE CASTE/TRIBE CERTIFICATE

SC/ST/OBC candidates should submit certificate issued by any of the following authorities:

District Magistrate/Additional District Magistrate/Collector/Deputy Commissioner/Addional Deputy Commissioner/Deputy Collector/1st Class Stipendiary Magistrate/City Magistrate/Sub- Divisional Magistrate/Taluka Magistrate/Executive Magistrate/Extra Assistant Commissioner/ Chief Presidency Magistrate/Additional Chief Presidency Magistrate/Presidency Magistrate/ Revenue Officer not below the rank of Tehsildar/Sub-Divisional Officer of the area where the candidate and/or his/her family normally resides/Administrator/Secretary to Administrator/Development Officer (Lakshadweep Island).

(Certificate issued by any other authority will not be accepted.)

Government of.................

(Name & Address of the authority issuing the certificate)

Prescribed Format for OBC Certificate

FORM OF CERTIFICATE TO BE PRODUCED BY OTHER BACKWARD CLASSES

This is to certify that Shri / Smt. / Kum. ____________________________

______________________ Son/Daughter of Shri / Smt. ____________________________

______________________ of Village/Town ____________________________

District/Division____________________ in the State belongs to the ____________________________

______________________Community which is recognized as a backward class under:

i. Resolution No. 12011/66/93-BCC(C) dated 10/09/93 published in the Gazette of India Extraordinary Part I Section I No. 166 dated 13/09/93.

ii. Resolution No. 12011/8/94-BCC dated 19/10/94 published in the Gazette of India Extraordinary Part I Section I No. 163 dated 20/10/94.

iii. Resolution No. 12011/7/95-BCC dated 24/05/95 published in the Gazette of India Extraordinary Part I Section I No. 88 dated 25/05/95.

v. Resolution No. 12011/13/97-BCC dated 03/12/97.

Shri / Smt. / Kum. ____________________________

and/or his family ordinarily reside(s) in the __________________District / Division of ____________________________State. This is also to certify that he/she does not belong to the persons/sections (Creamy Layer) mentioned in Column 3 of the Schedule to the Government of India, Department of Personnel & Training O.M. No. 36012/22/93-Estt.(SCT) dated 08/09/93 which is modified vide OM No. 36033/3/2004 Estt.(Res.) dated 09/03/2004.

Dated: _______________________

District Magistrate / Deputy Commissioner / Competent Authority

Seal

NOTE:

a. The term 'Ordinariness' used here will have the same meaning as in Section 20 of the Representation of the People Act, 1950.

b. The authorities competent to issue Caste Certificates are indicated below:

i. District Magistrate / Additional Magistrate / Collector / Deputy Commissioner / Additional Deputy Commissioner / Deputy Collector / 1st Class Stipendiary Magistrate / Sub-Divisional Magistrate / Taluka Magistrate / Executive Magistrate / Extra Assistant Commissioner (not below the rank of 1st Class Stipendiary Magistrate).

ii. Chief Presidency Magistrate / Additional Chief Presidency Magistrate / Presidency Magistrate.

iii. Revenue Officer not below the rank of Tehsildar and

iv. Sub-Divisional Officer of the area where the candidate and / or his family resides.
Declaration/Undertaking - for OBC Candidates only

I, ______________________________________ son/daughter of Shri ____________________________

________________________________________ resident of village/town/city ____________________________

district ____________________________ State ____________________________ hereby declare that I

belong to the_____________________________community which is recognized as a backward class

by the Government of India for the purpose of reservation in services as per orders contained in Department of Personnel and Training Office Memorandum No.36012/22/93- Estt. (SCT), dated 8/9/1993. It is also declared that I do not belong to persons/sections (Creamy Layer) mentioned in Column 3 of the Schedule to the above referred Office Memorandum, dated 8/9/1993, which is modified vide Department of Personnel and Training Office Memorandum No.36033/3/2004 Estt.(Res.) dated 9/3/2004.

Signature of the Candidate

Place: ____________________________

Date: ____________________________

Contact No.: ____________________________

Email ID ____________________________
ANNEXURE-3

Government of
(Name & Address of the authority issuing the certificate)
Certificate for Person with Disability to be issued by Medical Board
from Government Hospital

Name of the candidate: Mr./Ms.*

Father’s Name: 

Permanent Address:

Percentage loss of earning capacity (in words) whether the candidate is otherwise able to
carry on the studies and perform the duties of an engineer/architect satisfactorily: _______

Name of the disease-causing handicap: 

Whether handicap is temporary or permanent: 

Whether handicap is progressive or non-progressive: 

The candidate is FIT / UNFIT to pursue further studies.

(*Strike out whichever is not applicable)

Member 

Member

Principal Medical Officer
(Orthopaedic Specialist)

Date:

Seal of Office:

NOTE:
1. The medical board must have one orthopaedic specialist as its member.
2. Candidate having temporary or progressive handicap will not be considered against the seats.
ANNEXURE-4

Government of...................
(Name & Address of the authority issuing the certificate)

INCOME & ASSET CERTIFICATE TO BE PRODUCED BY ECONOMICALLY
WEAKER SECTIONS

Certificate No. .............
Date:...........................

VALID FOR THE YEAR .............

This is to certify that Shri/Smt./Kumari.......................... son/daughter/wife of
........................................................................ permanent resident of..............

Village/Street.................. Post Office................... District.....................
in the State/Union Territory....................... Pin Code......................
whose photograph is attested below belongs to Economically Weaker Sections, since the
gross annual income* of his/her family** is below Rs. 8 lakh (Rupees Eight Lakh only) for
the financial year.............. His/her family does not own or possess any of the following
assets***:

i. 5 acres of agricultural land and above;
ii. Residential flat of 1000 sq. ft. and above;
iii. Residential plot of 100 sq. yards and above in notified municipalities;
iv. Residential plot of 200 sq. yards and above in areas other than the notified municipalities.

Shri/Smt./Kumari.......................... belongs to the........................................... caste
which is not recognized as a Scheduled Caste, Scheduled Tribe and Other Backward
Classes (Central List)

Name............................ Signature with seal of Office

Designation............................

*Note 1: Income covered all sources i.e. salary, agriculture, business, profession, etc.

**Note 2: The term 'Family' for this purpose include the person, who seeks benefit of reservation, his/her parents and siblings below the age of 18 years as also his/her spouse and children below the age of 18 years.

***Note 3: The property held by a 'Family' in different locations or different places/cities have been clubbed while applying the land or property holding test to determine EWS status.

INCOME AND ASSET CERTIFICATE ISSUING AUTHORITY

The Income and Asset Certificate issued by any one of the following authorities in the
prescribed format as given above shall only be accepted as proof of candidate's claim
as 'belonging to EWS':

i. District Magistrate/Additional District Magistrate/ Collector/ Deputy Commissioner/Additional Deputy Commissioner/ 1st Class Stipendiary Magistrate/ Sub-Devisional Magistrate/ Taluka Magistrate/ Executive Magistrate/ Extra Assistant Commissioner,

ii. Chief Presidency Magistrate/Additional Chief Presidency Magistrate/ Presidency Magistrate,

iii. Revenue Officer not below the rank of Tehsildar and

iv. Sub-Devisional Officer or the area where the candidate and/or his family normally resides.
NO OBJECTION CERTIFICATE
(Required from candidates seeking admission in Ph.D. on Part-Time Basis)
(On the Organization LetterHEAD)

The undersigned is pleased to permit Mr./Ms. __________________________
who is working in this organization for the last ______ years and is presently holding the
rank/position of ____________________________ for pursuing the Ph.D. programme at Delhi
Technological University, Delhi with specialization in the following areas:

1. ____________________________  2. ____________________________

To the best of my knowledge and belief Mr./Ms. _______________ bears a good moral character.

If selected for admission, the candidate will be permitted and be granted leave of absence
to be present at the Delhi Technological University as required by the academic schedule to
attend classes/research work. He/She will continue to remain in service of this organization
for the entire duration of the course.

This organization has standing commitment to the exemplary standards namely ISO/CMM
or similar standard of respective area (required for candidates from industry).

Signature of Head of the
Institution/Organization with seal

(Ph.D. Coordinator/Dy. Coordinator)
Syllabus for Screening Test for Ph.D. ADMISSIONS Session January, 2024
1. Department of Applied Chemistry

**Discipline:** Chemistry

Chemical periodicity, structure and bonding, concepts of acids, bases and non-aqueous solvents, main, transition and inner-transition group elements and their compounds including properties, organometallic compounds, cages and metal clusters, bioinorganic chemistry.

Basic principles of quantum mechanics, chemical thermodynamics, electrochemistry, chemical kinetics, photochemical reactions, colloids and surfaces, solid state and polymer chemistry.

IUPAC nomenclature of organic molecules, configurational, conformational isomerism in acyclic and cyclic compounds. Organic reaction mechanism, determination of reaction pathways, common named reactions and rearrangements and applications in organic synthesis. Separation, electro- and thermal analytical methods. Molecular spectroscopy and characterization of chemical compounds by IR, Raman, NMR, EPR, UV-vis, MS, electron spectroscopy and microscopic techniques.

**Discipline:** Chemical Engineering

Material and energy balance, Chemical Engineering Thermodynamics. Basic concepts of fluid mechanics, flow through pipe, pressure drop calculations. Transport Phenomena, Heat transfer by conduction, convection, radiation, Concepts and design of heat exchangers and evaporators, Basic concepts of mass transfer, Different mass transfer processes and unit operations, Mechanical operations, Chemical reaction engineering: Design of homogeneous and heterogeneous reactors, Chemical process technology, Petroleum refining and petrochemicals. Instrumentation control and optimization. Principles of process economics and cost estimation.

Polymer chemistry, Polymer properties and testing: Determination of molecular weight, thermal, morphological, structural, Mechanical, optical, electrical and environmental properties of polymers, properties and applications of commodity, engineering and specialty polymers. Natural and synthetic rubbers, Polymer blends and composites, biopolymers, Polymer processing: Compression molding, injection molding, blow molding, extrusion, rotational molding, thermoforming, rubber processing.

2. Department of Applied Physics

**Discipline:** Physics

**Section 1: Mathematical Physics**

Vector calculus, matrices; similarity transformations, diagonalization, eigenvalues and eigenvectors; linear differential equations: second order linear differential equations and solutions involving special functions; Partial differential equations, complex analysis: Cauchy-Riemann conditions, Cauchy's theorem, singularities, residue theorem and applications; Laplace transform, Fourier series & analysis; Tensors, Numerical methods.

**Section 2: Classical Mechanics**

**Section 3: Electromagnetism**

Electrostatics and magnetostatics, boundary value problems, multipole expansion, Fields in conducting, dielectric, diamagnetic and paramagnetic media, Faraday's law and time varying fields; displacement current; Maxwell's equations; energy and momentum of electromagnetic fields; Propagation of plane electromagnetic waves, reflection, refraction; Electromagnetic waves in dispersive and conducting media.

**Section 4: Quantum Mechanics**

Wave-particle duality, uncertainty principle; Schrödinger equation; linear vectors and operators in Hilbert space; one dimensional potentials: step potential, finite rectangular well, tunnelling from a potential barrier, particle in a box, harmonic oscillator; two and three dimensional systems: concept of degeneracy, hydrogen atom; Stern-Gerlach experiment, angular momentum and spin; addition of angular momenta; variational method and WKB approximation, time independent
perturbation theory; elementary scattering theory; Born approximation; symmetries in quantum mechanical systems; Identical particles: Pauli exclusion principle.

Section 5: Thermodynamics and Statistical Physics
Laws of thermodynamics and their consequences; macrostates and microstates; phase space; ensembles; partition function, free energy, calculation of thermodynamic quantities; classical and quantum statistics; degenerate Fermi gas; black body radiation and Planck's distribution law; Bose-Einstein condensation; first and second order phase transitions, phase equilibria, critical point.

Section 6: Atomic and Molecular Physics
Quantum states of an electron in an atom; Spectra of one-and many-electron atoms; spin-orbit interaction: LS and j couplings; fine and hyperfine structures; Zeeman and Stark effects; Electronic, rotational and vibrational spectra of diatomic molecules; selection rules; electronic transitions in diatomic molecules, Franck-Condon principle; Raman effect; EPR, NMR, ESR, X-ray spectra; lasers: Einstein coefficients, population inversion, two, three and four level systems.

Section 7: Solid State Physics
Bravais lattices; crystal structures, Miller indices; diffraction methods for structure determination; Reciprocal lattice, bonding in solids; Defects and dislocations; lattice vibrations and thermal properties of solids; free electron theory; band theory of solids; Optical properties of solids; dielectric properties of solid; dielectric function, polarizability, ferroelectricity, magnetic properties of solids; domains and magnetic anisotropy; superconductivity: Type-I and Type II superconductors, Meissner effect, London equation, BCS Theory, flux quantization, Josephson junctions.

Section 8: Electronics
Semiconductors, electron and hole statistics in intrinsic and extrinsic semiconductors; Hall effect, metal-semiconductor junctions; Ohmic and rectifying contacts; PN diodes, bipolar junction transistors, field effect devices; negative and positive feedback circuits; oscillators, operational amplifiers, Opto-electronic devices, Microprocessor and microcontroller basics.
Section 2: Computational Physics

Roots of Non-linear Equations: Roots of equations, Bisection method, Regula Falsi Method or Method of False position, Secant, Newton-Raphson method, Convergence of these methods.

Interpolation: Finite differences and difference operators, interpolation with equally spaced data points: Newton’s forward and backward formulae for interpolation, Central difference: Gauss forward, Gauss Backward, Stirling, Bessels, Everett’s formula for interpolation, Interpolation with unequally data points: Divided differences and their property, Newton Divided differences formula.

Integration: Newton-cotes integration formulae, trapezoidal method, Simpson’s 1/3-rule, Simpson’s 3/8-rule, Boole’s and Weddle’s Rule.

Section 3: Quantum Mechanics

Wave-particle duality, uncertainty principle; Schrödinger equation; linear vectors and operators in Hilbert space; one dimensional potentials: step potential, finite rectangular well, tunnelling from a potential barrier, particle in a box, harmonic oscillator; two and three dimensional systems: concept of degeneracy.

Quantum states of an electron in an atom; Spectra of one-and many-electron atoms; spin-orbit interactions; fine and hyperfine structures; Zeeman and Stark effects; Electronic, rotational and vibrational spectra of diatomic molecules.

Section 4: Engineering Materials

Section 5: Synthesis and Characterization of Materials

Section 6: Electronic Devices and Circuits

Semiconductors, metal-semiconductor junctions; Ohmic and rectifying contacts; PN diodes, bipolar junction transistors, field effect devices; negative and positive feedback circuits; oscillators, operational amplifiers, active filters; basics of digital logic circuits, combinational and sequential circuits, flip-flops, timers, counters, registers, A/D and D/A conversion, Opto-electronic devices, Microprocessor and microcontroller basics.

Section 7: Communication Systems

Random processes: autocorrelation and power spectral density, properties of white noise, filtering of random signals through LTI systems.

Analog communications: amplitude modulation and demodulation, angle modulation and demodulation, spectra of AM and FM, superheterodyne receivers.

Information theory: entropy, mutual information and channel capacity theorem.

Digital communications: PCM, DPCM, digital modulation schemes (ASK, PSK, FSK, QAM), bandwidth, inter-symbol interference, MAP, ML detection, matched filter receiver, SNR and BER.

Section 8: Electromagnetics

Maxwell’s equations: differential and integral forms and their interpretation, boundary conditions, wave equation, Poynting vector.

Plane waves and properties: reflection and refraction, polarization, Phase and group velocity, propagation through various media, skin depth.

Transmission lines, Rectangular and circular waveguides, light propagation in optical fibers, dipole and monopole antennas, linear antenna arrays.
3. Department of Applied Mathematics

**DISCIPLINE: MATHEMATICS**

Differential & Integral calculus
Vector calculus
Algebra (Linear & Abstract)
Differential equations (ODE & PDE)
Laplace & Fourier transforms, Fourier series
Probability, statistics & operations research
Numerical methods
Special functions
Real and complex analysis

**DISCIPLINE: MATHEMATICS AND COMPUTING:**

Entrance exam will be 30% in Mathematics domain and 70% in Computing Domain

**Mathematics Domain (30%)**

**Calculus:** Sequences and Series, differential calculus, integral calculus, vector calculus. Basics and ordinary differential equation (ODE) and partial differential equation (PDE), Fourier Series.

**Linear Algebra:** Determinants and matrices, Cayley-Hamilton Theorem, Hermitian, skew Hermitian, unitary matrices, eigen values, eigen vectors.

**Transforms:** Laplace Transform, Fourier Transform.

**Probability and Statistics:** mean, mode, median and standard deviation, Probability space, conditional probability, Baye’s theorem, uniform, binomial, poisson, normal and exponential distribution.

**Computing Domain (70%)**

**Programming:** Programming fundamentals & C/C++ programming, object-oriented programming concepts using C++/JAVA.

**Data Structures and Algorithms:** Arrays, stack, queue, linked list, trees, binary search trees, graph, sorting and searching. Algorithm design techniques: greedy, dynamic programming and divide-and-conquer. Asymptotic space and time complexity.

**Digital Logic Design:** Boolean Algebra, Logic Functions, combinational and sequential circuit design, registers and counters, logic families.

**Computer organization and architecture:** Machine instructions and addressing modes, Instruction pipelining, memory hierarchy, I/O devices.

**Computer network:** OSI, TCP/IP, Brief overview of OSI layers, IPv4, IPv6, routers and routing algorithms (distance vector, link state), congestion control. Application layer protocols (DNS, SMTP, POP, FTP, HTTP).

**Database Management System:** ER model, relational model, normalization, integrity constraints, SQL, indexing transaction processing, concurrency control.

**Theory of Computation:** Regular expression, Finite automata, context free grammar, pushdown automata, regular and context free languages, pumping lemma, Turing machine.

**Compiler Design:** Lexical Analysis, parsing, syntax-directed translation, runtime environments, intermediate code generation.

**Operating System:** Types of OS, process management, concurrency and synchronization, CPU scheduling, deadlocks, memory management and virtual memory, disk scheduling, file systems.

**Discrete Structures:** Classical logic theory, Boolean algebra and relations and graph, tree, spanning tree, planar graph and coloring.

**Software Engineering:** Requirement and Feasibility Analysis, Data flow Diagrams, Process life cycle, design, coding, testing, implementation and maintenance.

4. Department of Civil Engineering

**DISCIPLINE: CIVIL ENGINEERING**

**Section - 1 : Civil Engineering (General)**

and characteristics of different types of construction materials to include Steel, Concrete, Wood, Stone, Brick/Masonry etc., requirements of good construction materials. Transportation and Highway Engineering – Types and classification of roads, IRC, road construction and materials, road construction equipment. Project Management: Basic terms in project management, CPM/PERT, critical path, float/slack, quality control, risk management, resource scheduling and management, project management software.

Section - 2: Mathematics

Section - 3: Hydraulics and Water Resource Engineering

Section - 4: Structural Engineering

Mechanics of Material: Bending moment and shear force in statically determinate beams: Simple stress and strain relationships; Theories of failures; Simple bending theory, flexural and shear stresses, shear centre; Uniform torsion, buckling of column, combined and direct bending stresses. Structural Analysis: Statically determinate and indeterminate structures by force/energy methods; Method of superposition; Analysis of trusses, arches, beams, cables and frames, Displacement methods: Slope deflection and moment distribution methods; Influence lines; Stiffness and flexibility methods of structural analysis: Concrete Structures: Working stress, Limit state and ultimate load design concepts; Design of beams, slabs, columns, footing, staircase; Prestressed concrete.

Steel Structures: Working stress and Limit state design concepts; Design of tension and compression members, beams and beam-columns, column bases, Connections – simple and eccentric, beam-column connections, plate girders and trusses, Plastic analysis of beams and frames. Prestressed Concrete: Pre-stressing systems and end anchorages, losses of pre-stress. Analysis and design of members for flexure, shear, bond and bearings, Cable layouts, Design of Pre-stressed Bridges. Structural Dynamics: Free and Forced vibration analysis of Single and Multi degree of freedom systems. Orthogonality relationships of principal modes, Earthquake forces, nature and magnitude, pseudostatic method of approximate evaluation of earthquake forces, seismicity, Earthquake Motion and Response, Response Spectra, Philosophy of Capacity Design. Concepts of seismic design: Earthquake resistant design, construction & detailing for RCC and Masonry structures and relevant codes such as IS 1893:2002, IS 13920, IS:4326 etc.

Section - 5: Geotechnical Engineering

Soil Mechanics and Geotechnical Engineering - Nature of soil, soil formation and soil type.
soil properties, basic definitions, phase relations, index properties, basic concepts of clay minerals and soil structure, soil classification and identification, hydraulic conductivity, seepage, compaction, stress distribution, shear strength, Mohr's circle of stress, Mohr-Coulomb failure theory, shear strength parameters, compressibility and consolidation, soil exploration, shallow foundations, settlements of footings and rafts, pile foundations.

Geotechnical Earthquake Engineering - Engineering seismology, seismic risks and hazards, social and economic consequences, nature and attenuation of earthquake magnitude, ground motion, site characteristics, dynamic behavior of soils, liquefaction and cyclic mobility, seismic response of soil structure system, mitigation techniques. Rock Mechanics - Problems of rock mechanics, rock exploration, Griffith's theory, Coulomb's theory, in-situ tests on rock mass, mechanical, thermal and electrical properties of rock mass, pressure tunnels, lined and unlined tunnels, foundation on rocks, slope stability, rock bolt anchors and grouting, problems associated with tunnels, tunnelling in various subsoil conditions and rocks.

Ground Improvement Techniques - Mechanical modification, precompression, sand drains, soil stabilisation, chemical modifications and grouting, hydraulic modification, ground modification by soil reinforcement, difficult soils.

5 Department of Computer Science and Engineering / Department of Information Technology / Department of Software Engineering

Programming and Data structures: Programming in C, recursion, arrays, stacks, queues, linked list, trees, binary heaps, graphs.

Algorithms: Searching sorting hashing asymptotic worst-case time and space complexity algorithm design techniques: Greedy, dynamic programming and divide and conquer. Graph search, minimum spanning trees, shortest path.

Theory of computation: Regular expression and finite automata context-free grammar and pushdown automata, regular and context-free languages, pumping Lemma, Turing machines and undecidability.

Compiler Design: Lexical analysis parsing syntax-directed translation runtime environments intermediate code generation.

Operating system: Processes inter-process communication concurrency and synchronisation, deadlock CPU scheduling, memory management and virtual memory file systems.

Database management systems: ER model, relational algebra, tuple calculus, SQL integrity constraints, normal forms, file organisation, indexing (B and B plus trees) transactions and concurrency control.

CIDR notation, Basics of IP support protocols (ARP, DHCP, ICMP). Network Address Translation (NAT), and Email.

Software engineering: Software development life cycle, requirement and feasibility analysis, data flow diagrams, process specifications, input/ output planning and managing the project, design, coding, software testing, implementation, maintenance, software metrics.

Basics of Artificial Neural Networks (ANN): Supervised, Unsupervised and Reinforcement Learning.

6. Department of Delhi School of Management

7. Department of Design
1. Visualization and Spatial ability
2. Environmental and Social Awareness
3. Analytical and Logical Reasoning
4. Language and Creativity
5. Observation and Design Sensitivity

8. Department of Electrical Engineering

Section 1: Electric Circuits
Network graph, KCL, KVL, Node and Mesh analysis, Transient response of dc and ac networks, sinusoidal steady-state analysis, resonance, passive filters, Ideal current and voltage sources, Thevenin's theorem, Norton's theorem, Superposition theorem, Maximum power transfer theorem, Two-port networks, Three phase circuits, Power and power and factor in ac circuits.

Section 2: Electromagnetic Fields
Coulomb's Law, Electric Field Intensity, Electric Flux Density, Gauss's Law, Divergence, Electric field and potential due to point, line plane and spherical charge distributions, Effect of dielectric medium, Capacitance of simple configurations, Biot-Savart's law, Ampere's law, Curl, Faraday's law, Lorentz force, Inductance, Magneto motive force, Reactance, Magnetic circuits, Self and Mutual inductance of simple configurations.

Section 3: Signals and Systems

Section 4: Electrical Machines

Section 5: Power systems
Power generation concepts, ac and dc transmission concepts, Models and performance of transmission lines and cables, Series and shunt compensation, Electric field distribution and insulators, Distribution systems, Per-unit quantities, Eus admittance matrix, Gauss-Seidel and Newton-Raphson load flow methods, Voltage and Frequency control, power factor correction, Symmetrical components, Symmetrical and unsymmetrical fault analysis, Principles of over-current.
differential and distance protection; Circuit breakers, System stability concepts, Equal area criterion.

Section 6: Control Systems
Mathematical modeling and representation of systems, Feedback principle, transfer function, Block diagrams and Signals flow graphs, Transient and Steady-state analysis of linear time invariant systems, Routh-Hurwitz and Nyquist criteria, Bode plots Root loci, Stability analysis, Lag, Lead and Lead-Lag compensators; P, PL and PID controllers; State space model, State transition matrix.

Section 7: Electrical and Electronic Measurements
Bridges and potentiometers, Measurement of voltage, current, power, energy and power factor; Instrument transformers. Digital voltmeters and multimeters, Phase, Time and Frequency measurement; Oscilloscopes, Error analysis.

Section 8: Analog and Digital Electronics
Characteristics of diodes, BJT, MOSFET; simple diode circuits clipping, clamping, rectifiers; Amplifiers; Biasing, Equivalent circuit and Frequency response; Operational amplifiers; Characteristics and applications, Combinational and Sequential logic circuits, multiplexer, DE multiplexer, 8085 microprocessors; Architecture, programming and Interfacing.

Section 9: Power Electronics
Characteristics of semiconductor power devices; Diode, Thyristor, Triac, GTO, MOSFET, IGBT; DC to DC conversion; Buck, Boost and Buck-Boost converters; Single and three phase configuration of uncontrolled rectifiers, Line commutated thyristor based converters, Bidirectional ac to dc voltage source converters, Issues of line current harmonics, Power factor, Distortion factor of ac to dc converters, Single phase and three phase inverters, Sinusoidal pulse width modulation.

Department of Electronics and Communication Engineering
Networks, Signals and Systems
Network Analysis: Node and mesh Analysis, superposition, Thevenin's theorem and Norton's theorem, maximum power

Transfer. Steady state sinusoidal analysis: phasors: Time and imagery domain analysis of linear circuits; Solution of network equations using Laplace transform; Frequency domain analysis of RLC circuits.
Continuous time signals: Fourier series and Fourier transform, sampling theorem and applications.
Discrete-time signals: DTFT, DFT, FFT, Z-transform, interpolation of discrete-time signals.
LTI systems; definition and properties causality, stability, impulse response, convolution, poles and zeros, parallel and cascade structure, frequency response, group delay, phase delay, digital filter design techniques.

Image Processing
Image transforms: Unitary transforms, Sine, Cosine, Hadamard transform, KL transform, Short term Fourier transform, Wavelet transform, DWT.
Image Enhancement techniques- Histogram Modelling, Spatial operations, transforms operations.
Segmentation techniques- Thresholding based, cluster analysis, region growing.
Morphological Operation- Dilation, Erosion, Histogram and Histogram equalization.

Electronic Devices
Energy bands in intrinsic and extrinsic semiconductors, equilibrium carrier concentration, direct and indirect band gap semiconductors.
Carrier Transport: diffusion current, drift current, mobility and resistivity; Generation and recombination of carriers; Poisson and continuity equations; P-N junction, Zener diode, BJT, MOS capacitor, MOSFET, LED, photo diode and solar cell.

Analog Circuits
Small signal equivalent circuits of diodes, BJTs and MOSFETs; Simple diode circuits; clipping, clamping and rectifiers.
BJT and MOSFET amplifiers: biasing, bias stability, mid frequency small signal analysis and frequency response; of BJT and MOSFET amplifiers; multi-stage, differential, feedback, power and operational; Simple op-amp circuits.

Digital Circuits:
Logic gates and their static CMOS implementations, arithmetic circuits, code converters, multiplexers, decoders, encoders. Sequential circuits; latches and flip-flops,
counters, shift-registers.
Data converters; sample and hold circuits, ADCs and DACs.
Semiconductor memories; ROM, SRAM, DRAM.
8-bit microprocessor (8085); architecture, programming, memory and I/O interfacing.

Control Systems
Basic control system components;
Feedback principle; Transfer function;
Block diagram representation; Signal flow graph;
Transient and steady-state analysis of LTI systems; Frequency response;
Routh-Hurwitz and Nyquist stability criteria; Bode and root-locus plots;
Lag, lead and lag-lead compensation; State variable model and solution of state equation of LTI systems.

Communications
Probability and Statistics: Mean, mode, median and standard deviation, distribution function, density function, conditional probability, Baye's theorem, uniform, binomial, Poisson, normal and exponential distribution, Gaussian distribution function, movements, centralized moments, characteristic functions.
Random Process: autocorrelation and power spectral density, properties of white noise, filtering of random signals through LTI system;
Stochastics process and its applications.
Biased and unbiased estimation, the maximum likelihood estimation, simple linear regression, properties of the least squares estimators.
Analog communications: Amplitude modulation and demodulation, angle modulation and demodulation, spectra of AM and FM, superheterodyne receivers, circuits for analog communication.
Digital communications: PCM, DPCM, digital modulation schemes (ASK PSK, FSK, QAM), intersymbol interference, MAP and ML detection, matched filter receiver, SNR and BER.
Fundamentals of error detection and correction, information, mutual, entropy, channel capacity theorem.

Electromagnetics:
Maxwell's equations: differential and integral forms and their interpretation, boundary conditions, wave equation.
Plane waves and properties: reflection and refraction, polarization, phase and group velocity, propagation through various media, skin depth.
Transmission lines: equations, characteristic impedance, impedance matching, impedance transformation, S-parameters, Smith chart

Rotating machinery 
Influence of magnetic fields on machinery performance.
Enhancement techniques- Spatial domain-relationship between pixels- basic grey level transformations; Histogram processing, smoothing spatial filters, sharpening spatial filters.

Frequency domain- smoothing frequency domain filters-sharpening frequency domain filters, homographic filtering.

Segmentation techniques- Thresholding based, cluster analysis, region growing.

Electronic Devices
Energy bands in intrinsic and extrinsic silicon; Carrier transport; diffusion current, drift current, mobility and resistivity; Generation and recombination of carriers, Poisson and continuity equations; P-N junction, Zener diode, BJT, MOS capacitor, MOSFET, LED, photo diode and solar cell; Integrated circuit fabrication process; oxidation, diffusion, ion implantation, photolithography and twin-tub CMOS process.

Analog electronics
Small signal equivalent circuits of diodes, BJTs and MOSFETs; Simple diode circuits; clipping, clamping and rectifiers; Single-stage BJT and MOSFET amplifiers; biasing, bias stability, mid frequency small signal analysis and frequency response; BJT and MOSFET amplifiers; multi-stage, differential, feedback, power and operational; Simple op-amp circuits; Active filters; Sinusoidal oscillators; criterion for oscillation, single-transistor and op-amp configurations; Function generators, wave-shaping circuits and 555 timers; Voltage reference circuits; Power supplies; ripple removal and regulation.

Digital Circuits:
Number systems; Combinatorial circuits; Boolean algebra, minimization of functions using Boolean identities and Karnaugh map, logic gates and their static CMOS implementations, arithmetic circuits, code converters, multiplexers, decoders, encoders, PALs and PLAs; Sequential circuits; latches and flip-flops, counters, shift-registers and finite state machines; Data converters; sample and hold circuits, ADCs and DACs; Semiconductor memories; ROM, SRAM, DRAM; 8-bit microprocessor (8085); architecture, programming, memory and I/O interfacing.

Control Systems
Basic control system components; Feedback principle; Transfer function; Block diagram representation; Signal flow graph; Transient and steady-state analysis of LTI systems; Frequency response; Routh-Hurwitz and Nyquist stability criteria; Bode and root-locus plots; Lag, lead and lag-lead compensation; State variable model and solution of state equation of LTI systems.

Communications
Analog communications: amplitude modulation and demodulation, angle modulation and demodulation, spectra of AM and FM, superheterodyne receivers, circuits for analog communication; Information theory: entropy, mutual information and channel capacity theorem; Digital communications: PCM, DPCM, digital modulation schemes, amplitude, Gram Schmidt orthogonalization procedure, phase and frequency shift keying (ASK, PSK, FSK); DCM, MAP and ML decoding, matched filter receiver, calculation of bandwidth, SNR and BER for digital modulation; Fundamentals of error detection and correction, Single parity code, Hamming codes; Timing and frequency synchronization, inter-symbol interference and its mitigation; Basics of TDMA, FDMA and CDMA.

Electromagnetics:
Electromagnetics; Maxwell's equations; differential and integral forms and their interpretation, boundary conditions, wave equation, Poynting vector; Plane waves and properties; reflection and refraction, polarization, phase and group velocity, propagation through various media, skin depth; Transmission lines: equations, characteristic impedance, impedance matching, impedance transformation, S-parameters, Smith chart; Waveguides: modes, boundary conditions, cut-off frequencies, dispersion relations; Antennas: antenna types, radiation pattern, gain and directivity, return loss, antenna arrays; Basics of radar; Light propagation in optical fibers, Modal Analysis of a step index fiber, Attenuation and dispersion in optical fibers, Optical sources and detectors, Optical Amplifiers, Optical link design.
9. Department of Environmental Engineering

10. Department of Humanities

The Following Syllabus is common for:

DISCIPLINE : Humanities (Economics)

DISCIPLINE : USME (Economics)

Micro Economics

Consumer behaviour, Demand and Supply analysis, Concept of Elasticity. Theory of production and costs, Forms of Market, Pricing and Output Decision. Tax and Subsidy, Elements of General Equilibrium and Welfare Economics.

Macro Economics

International Trade

Theories of International Trade, Balance of Payment, Terms of Trade, Free trade and Protection.

Indian Economy

Statistics

Measures of Central tendency, Measurement of Dispersion, Correlation, Regression, Interpolation and Extrapolation Sampling Distributions Normal, t, Chi square, F distribution, Testing of hypothesis, Index numbers.

11. Department of Mechanical Engineering (25% from each section)

Section 1: Applied Mechanics and Design

Engineering Mechanics: Free-body diagrams and equilibrium; friction and its applications including rolling friction, belt-pulley, brakes, clutches, screw jack, wedge, vehicles, etc.; trusses and frames; virtual work; kinematics and dynamics of rigid bodies in plane motion; impulse and momentum (linear and angular) and energy formulations; Lagrange's equation.

Mechanics of Materials: Stress and strain, elastic constants, Poisson's ratio; Mohr's circle for plane stress and plane strain; thin cylinders; shear force and bending moment diagrams; bending and shear stresses; concept of shear centre; deflection of beams; torsion of circular shafts; Euler's theory of columns; energy methods; thermal stresses; strain gauges and rosettes; testing of materials with universal testing machine; testing of hardness and impact strength.

Theory of Machines: Displacement, velocity and acceleration analysis of plane mechanisms; dynamic analysis of linkages; cams; gears and gear trains; flywheels and governors; balancing of reciprocating and rotating masses; gyroscope.

Vibrations: Free and forced vibration of single degree of freedom systems, effect of damping; vibration isolation; resonance; critical speeds of shafts.

Machine Design: Design for static and dynamic loading; failure theories; fatigue strength and the SN diagram; principles of the design of machine elements such as bolted, riveted and welded joints; shafts, gears, rolling and sliding contact bearings, brakes and clutches, springs.

Section 2: Fluid Mechanics and Thermal Sciences

Fluid Mechanics: Fluid properties; fluid statics, forces on submerged bodies, stability of floating bodies; control-volume analysis of mass, momentum and energy; fluid acceleration; differential equations of continuity and momentum; Bernoulli's equation; dimensional analysis; viscous flow
of incompressible fluids, boundary layer, elementary turbulent flow, flow through pipes, head losses in pipes, bends and fittings; basics of compressible fluid flow.

**Heat-Transfer:** Modes of heat transfer: one dimensional heat conduction, resistance concept and electrical analogy, heat transfer through fins, unsteady heat conduction, lumped parameter system, Heisler's charts; thermal boundary layer, dimensionless parameters in free and forced convective heat transfer, heat transfer correlations for flow over flat plates and through pipes, effect of turbulence; heat exchanger performance, LMTD and NTU methods; radiative heat transfer, Stefan-Boltzmann law, Wien's displacement law, black and grey surfaces, view factors, radiation network analysis.

**Thermodynamics:** Thermodynamic systems and processes; properties of pure substances, behavior of ideal and real gases; zeroth and first laws of thermodynamics, calculation of work and heat in various processes; second law of thermodynamics; thermodynamic property charts and tables, availability and irreversibility; thermodynamic relations.

**Section 3: Materials and Manufacturing**

**Engineering Materials:** Structure and properties of engineering materials, phase diagrams, heat treatment, stress-strain diagrams for engineering materials.

**Casting, Forming and Joining Processes:** Different types of castings, design of patterns, moulds and cores; solidification and cooling; riser and gating design. Plastic deformation and yield criteria; fundamentals of hot and cold working processes; load estimation for bulk (forging, rolling, extrusion, drawing) and sheet (shearing, deep drawing, bending) metal forming processes; principles of powder metallurgy. Principles of welding, brazing, soldering and adhesive bonding.

**Machining and Machine Tool Operations:** Mechanics of machining; basic machine tools; single and multi-point cutting tools; tool geometry and materials, tool life and wear; economics of machining; principles of non-traditional machining processes; principles of work holding, jigs and fixtures; abrasive machining processes; NC/CNC machines and CNC programming.

**Section 4: Industrial Engineering**

**Metrology and Inspection:** Limits, fits and tolerances; linear and angular measurements; comparators; interferometry; form and finish measurement; alignment and testing methods; tolerance analysis in manufacturing and assembly, concepts of coordinate-measuring machine (CMM).

**Computer Integrated Manufacturing:** Basic concepts of CAD/CAM and their integration tools; additive manufacturing. Robotics and Mechatronics.

**Production Planning and Control:** Forecasting models, aggregate production planning, scheduling, materials requirement planning; lean manufacturing.

**Inventory Control:** Deterministic models; safety stock inventory control systems.

**Operations Research:** Linear programming, simplex method, transportation, assignment, network flow models, simple queuing models, PERT and CPM.

**12. USME**

**Discipline: Management**

Supply Chain Management, Business Research Methods, Business Statistics.

Operations management, vendor management, Services marketing and service operations, CRM, Business Analytics, predictive techniques, marketing financial and HR analytics, supply chain analytics, optimization techniques, big data analytics, Entrepreneurship, innovation management, managing technology. Managerial Economics, forecasting, inventory management, various types of costing approaches, total quality management.

**Discipline: Innovation Entrepreneurship and Venture Development**

**Unit 1:** Comprehension Passages from success stories in Entrepreneurship and startup Leadership. Current affairs related to startups.

**Unit 2:** Entrepreneurship, Social entrepreneurship, Intrapreneurship, Entrepreneurial Characteristics, Entrepreneur v/s Manager, Entrepreneurial Motivation.

**Unit 3:** Innovation Management, Diffusion of Innovation, Innovation Cycle, New Product Development, Design Thinking.

**Unit 4:** Startup, Stages of Startup, Ideation, Pre-startup, Startup and Scaling up Stage, Start Up India Program, Start Up concept and its support to start-ups, Startup Financing, Seed Funding, Angel investors, venture capital funding, government financial support for startups, MSME-definition and its types.

**Unit 5:** Government Schemes & Policy for Startups and MSMEs, ATAL Innovation Mission (AIM), ATAL Tinkering Lab (ATL), Self Employment & Talent Utilization (SETU) scheme, SFURTI Scheme, Intellectual Property Rights (IPR), Start Up Intellectual Property Protection (SIPP), Trademark, Copyright, Patents, Type of Companies in India and their Characteristics, Formation Legalities of the Company.
Centre of Excellence for the Science of Happiness

Science and practice of happiness, Measurement of Happiness and well being, Happiness at work and daily living, consumer happiness, building resilience, Gross National Happiness, Traditional knowledge and Values, Theories of emotions, Happiness and prosperity, Harmony in family and society. Human values, Science and art behind meditation, Power of Self discipline, Peaceful conversation, Brain and heart connection, Healing from the heart, Managing with heart.

Multidisciplinary Centre for Geoinformatics (MCG)

Vinod Dham Centre of Excellence for Semiconductors and Microelectronics (VDCoE4SM)

Discipline: Semiconductors and Microelectronics

Section 1: Computational Physics

Section 2: Semiconductor Device Physics

Fermi energy, density of states function, quantum tunneling, potential inside a semiconductor, semiconductor in Equilibrium, Carrier transport phenomena and models, PN junction, metal semiconductor and hetero junctions, Shallow and deep levels, Carrier statistics, Carrier transport, Carrier mobility, Scattering mechanisms, Hall effect measurements, High field property, Non-equilibrium conditions, Quasi Fermi levels, Recombination processes, Current density and continuity equations, Surface recombination, Surface states, Excitons in semiconductors, Diffusion capacitance, Generation-recombination currents, Junction breakdown mechanisms, Heterojunctions: Band alignments, energy band diagrams of heterojunctions, formation of two dimensional electron gas; Metal-semiconductor contacts: Schottky barrier diode, Fermi level pinning, C-V characteristics of a Schottky diode, Current transport processes and I-V characteristics, Ohmic contacts.

Section 3: Electromagnetics

Electromagnetics; Maxwell's equations: differential and integral forms and their interpretation, boundary conditions, wave equation, Poynting vector; Plane waves and properties: reflection and refraction, polarization, phase and group velocity, propagation through various media, skin depth, Transmission lines: equations, characteristic impedance, impedance matching, impedance transformation, S-parameters, Smith chart, Waveguides: modes, boundary conditions, cut-off frequencies, dispersion relations.

Section 4: Electronic Devices

Energy bands in intrinsic and extrinsic silicon; Carrier transport; diffusion current, drift current, mobility and resistivity; Poisson and continuity equations; device structure and characteristics: P-N junction, Zener diode, BJTs, MOSFETs, LEDs, LASERs, Semiconductor Photodetectors, Solar Cells, PIN photodiode, APDs; Integrated circuit fabrication process; epitaxy, clean room, oxidation, diffusion, ion implantation, photolithography, assembly techniques, packaging and twin-tub CMOS process.

Section 5: Analog System Design

Diode Applications: Clipping, clamping, rectifiers and regulators; transistor biasing, bias stability, BJTs and MOSFETs amplifiers; mid frequency small signal analysis and frequency response, cascode, multi-stage, differential, feedback, power and operational amplifiers; Simple op-amp circuits: Active filters; Sinusoidal oscillators; criterion for oscillation, op-amp configurations, Current Mirror, Voltage and Current references, Comparators, Sample and Hold circuits, Nyquist rate ADCs and DACs; Function generators, wave-shaping circuits and 555 timers; Power supplies.

Section 6: Digital System Design

Number systems; Combinatorial circuits: Boolean algebra, minimization of functions using Boolean identities and Karnaugh map, logic gates, arithmetic circuits, code converters, multiplexers, decoders, encoders, PALs and PLAs; Sequential circuits: latches and flip-flops, counters, shift-registers and finite state machines; Semiconductor memories; ROM, SRAM, DRAM, Introduction to RTL, DTL, TTL, Schottky TTL, III and ECL logic families, concept of Noise margin, fan out and propagation delay, 16-bit microprocessor (8086); architecture, programming, memory and I/O interfacing.
Section 7: VLSI System Design
Static and dynamic characteristics of CMOS inverters, delay estimation, logical efforts and transistor sizing, power dissipation, interconnect, combinational CMOS logic circuits, complex logic circuits, behavior of MOS logic elements, SR latch circuit, clocked latch and flip-flop circuits, CMOS D-latch and edge-triggered flip-flop, pass transistor and Transmission gate logic, Stick diagram and Layout, VLSI Design Flow: Full custom and Semi Custom, Verilog/VHDL, FPGA architecture, Verification, and Testing, AC Model of MOS, MOS resistors, CMOS Fabrication process flow, layout design rules, full custom mask layout design.

Department of Biotechnology
Molecules and their Interaction Relevant to Biology: Structure and functions of biomolecules; Carbohydrates; Fatty acids; Lipids; Amino acids; Proteins; Nucleic acids – DNA, mRNA, tRNA, rRNA; Hormones; Vitamins; Enzymes; Bioenergetics; Cell metabolism; Protein-protein and protein-DNA interactions
Cellular Organization: Cell theory; Cell as basic unit of life; Hierarchy of cell organization; Structure and organization of prokaryotic and eukaryotic cells; Structure and function of cell organelles; cell cycle; Bio-membranes; Cytoskeletal elements; Chromosome structure; Karyotype; Chromatin organization
Fundamental Processes: Photosynthesis; Cellular respiration; Movement through cell membrane; Nutrition; Blood clotting; Human physiological systems; Replication; Transcription; Translation; DNA repair mechanisms; Plant physiology; Bacterial growth; Microbial genetics, Secondary metabolites
Cell Communication and Cell Signalling: Tight adherents and communicating cell junctions; Cell adhesion molecules; Cadherins and Integrons; Extracellular matrix; Cell cycle; Basics of cancer; Basics of cell signaling; Major signaling pathways.
Developmental Biology: Stages of development; Mechanism of differentiation; Germ layers; Potency; Morphogenetic movements; Early and late development in model organisms; Cell division; Gametogenesis and fertilization in animals and flowering plants; Embryology; Seed germination; Dormancy; Evolution and natural selection; Mendel’s law of heredity; Evidence of DNA as genetic information carrier; Hardy-Weinberg law; Extra-chromosomal inheritance; Sex-linked inheritance in humans; Mutations
Plant and Animal Biotechnology: Plant tissue culture techniques; Totipotency; Organogenesis and Somatic embryogenesis; Suspension culture; Protoplast isolation and somatic hybridization; Production of secondary metabolites; Basic techniques in animal cell and organ culture; Bioreactors for large scale culture of animal cells; Stem cells; Transgenic plants and animals
Immunology and Immunotechnology: Immunity; Antigen; Structure of antibody; Hapten; Antigen-antibody interaction, Introduction to antigen presentation; Role of MHC; Complement system; Bacterial diseases of humans; Types of vaccines; Immunization; Recombinant vaccines.
Inheritance Biology: Mendelian’s principles, Extensions of Mendelian principles, Gene mapping methods, Extra chromosomal inheritance, Human genetics, Mutations, Structural and numerical alterations of chromosomes.
Diversity of Life Forms: General characteristics of life forms; General characteristics of bacteria, fungi, algae, Microbial growth curve; plant and animal viruses; Classification of plant and animal kingdom
Ecological Principles and Environmental Biology: Ecosystem; Ecological relationships; Habitat and niche; Ecology of ecosystems; Air, water, and soil pollution; Greenhouse effect and global warming; Noise pollution; Pollution abatement; Wastewater treatment; Disposal of solid wastes; Biogeochemical cycles of elements; Bioremediation; Bioleaching; Biopesticides; Biofertilizers
Evolution and Behaviour: Evolution and natural selection; Mendel’s law of heredity; Evidences of DNA as genetic information carrier; Hardy-Weinberg law; Extra-chromosomal inheritance; Sex-linked inheritance in humans; Mutations.
Applied Biology: Basics of fermentation technology; Microbes in industry; Biosensors; Biofuels; Principles of gene cloning; Methods of gene transfer; Application of biology in agriculture, health, industry, and environment sectors.
Assay techniques in Biology: Basics of Centrifugation; Electrophoresis; Chromatography; Microscopy; UV-Visible spectrophotometry; Radiotracer technique; PCR; DNA sequencing; Southern blotting; Tests of significance; Analysis of variation; Correlation and regression; Hybridoma technology; Basic techniques in bioinformatics

Bioinformatics and Computational Biology: Sequence and Structural Databases (NCBI, GenBank, EMBL, DDBJ, PDB); SNP databases; Visualization tools - Pymol, VMD; Functional Annotation; Local and Global Alignment; Phylogenetics; Pharmacogenomics; Machine learning

Diagnostic techniques: X-Rays, CT scan, MRI, Pathology test, ECG, EEG
