Delhi Technological University

(formerly known as Delhi College of Engineering) is one of the most well-known engineering institutions in India, with over 76 years of glorious tradition behind it.

A non-affiliating, teaching and research University, DTU is poised to create an academia and industry. It aims to cause a major departure from the conventional system of education and research and inspire to imbibe a culture of scientific research in its management and technology disciplines and develop scientific temper by providing a seamless environment for integration of science, engineering and management.

The University also endeavours to provide the thrill of a corporate R&D environment with a planned focus on industry relevant projects. DTU has consistently been ranked among the top institutions of the country in reputed surveys.

Department of Design

is envisioned to pursue excellence in design thinking, design scholarship and design practice for the betterment of society in a holistic manner.

Design is viewed as a driver of innovation and is recognized as key differentiator for providing competitive edge to products and services. It involves an integrated humanistic approach to design products, it involves an integrated humanistic approach to design products, services and systems. It seeks to delve deeper in understanding of technological, Commercial and societal context in conception.

Developments and delivery of innovative products and services as well as tools, techniques and methods required in the practice of design suitable to environment.

The four-year Bachelor of Design (B.Des.) programme is offered at DTU in the following areas of specialization:

Visual Communication
