

15.12.2021

The Central Library is organizing an online training session on Journal Citation Reports (JCR) on Friday 17.12.2021 at 3 pm. JCR is an annual publication by Clarivate Analytics (previously the intellectual property of Thomson Reuters). It has been integrated with the Web of Science and is accessed from the Web of Science-Core Collections. It provides information about academic journals in the natural sciences and social sciences, including impact factors.

JCR provides you with the transparent, publisher-neutral data and statistics you need to make confident decisions in today's evolving scholarly publishing landscape, whether you're submitting your first manuscript or managing a portfolio of thousands of publications.

Quickly understand a journal's role within and influence upon the global research community by exploring a rich array of citation metrics, including the Journal Impact Factor (JIF), alongside descriptive data about a journal's open access content and contributing authors.

JCR is the only journal report of its kind produced by publisher-neutral experts, providing you with unbiased journal statistics trusted by over 9,000 institutions worldwide. JCR journal profiles aggregate publication and citation data sourced from the Web of Science Core Collection the world's original citation index for scientific and scholarly research.

All faculty members and students of DTU are requested to attend this please.

Please find the below link for the session.
