DELHI TECHNOLOGICAL UNIVERSITY

Delhi Technological University (DTU) was established in 1941 as Delhi polytechnic by then Govt. of India and became Delhi College of Engineering (DCE) in 1965. In 2009 Delhi college of engineering became DTU vide Delhi act no. 6 of 2009 by govt. of NCT of Delhi. Erstwhile DCE which is now DTU is the mother institution of IITD, SPA, College of Pharmacy and College of Arts. University has illustrious past and has been regularly featuring among top ten technical Institutions of India including IITs.

DTU offers 15 UG courses, 22 PG courses, and Ph.D. programme in various disciplines of science and engineering.

ABOUT THE DEPARTMENT

The department has teaching and research programmes which encompass various basic and applied aspects of modern biotechnology. The main objective of the department is to provide academic training and conduct research in the interdisciplinary areas of biotechnology with particular emphasis on extending the knowledge generated from these studies towards the development of technologies of commercial significance Bachelor of Technology (B.Tech) in Biotechnology and Master of Technology (M.Tech) in Bioinformatics, Biomedical Engineering and Industrial Biotechnology.

Research interests of the department include nanobioelectronics, neurobiology, genome informatics, immunotherapeutics, plant molecular biology and environmental biotechnology. The department has undertaken sponsored projects funded by ICMR, CSIR, DST, UGC, etc.

ABOUT TEQIP-III

TEQIP-III(Technical education Quality Improvement Programme) is a world Bank funded project aimed at improving the technical education of the country and uplifting the research quality. It helps to fund innovative projects in the academic institution and improving faculty skills.

COURSE OBJECTIVE

The motivation of this course is to enrich the knowledge in the field of recent advances in translational medicine and its applications. Alongside, this course highlights on various issues, challenges and applications related to translational medicine.

COURSE CONTENT

The proposed topics of discussion in the short-term course include but are not restricted to:

- Biomarkers in Translational medicine
- New Horizons in Big Data & Omics Sciences
- New Horizons in Drug Discovery & Development
- New Developments & Updates in Precision medicine & Point-of-Care Diagnostics
- Clinical and translational Oncology
- Immunology and Infectious Diseases
- Advances in Translational Medicine
- Stem Cells/Regenerative Medicine
- Biopharmaceuticals

RESOURCE PERSONS

Eminent faculties and other experts from reputed universities, industries and research organizations.

ELIGIBILITY TO ATTEND FDP

The Programme is open to the faculty members of AICTE/UGC approved Engineering Institution/Universities /R&D Labs and research scholars working in the area of Translational Medicine.
