THE ANNUAL TECHNICAL FEST OF DEPARTMENT OF APPLIED PHYSICS

AURORA '17

AURORA, the most anticipated & exciting annual Technical Festival being hosted by the Department of Applied Physics especially by *Engineering Physics students* in association with *DEPTH*

(Del-Tech Engineering Physics Technological Hub).

It provides a very sound platform for all tech geeks and Physics enthusiasts for showcasing their talents.

The college organizes cultural and technical festivals. While the cultural festivals are a break from studies and comprise events such as music concerts and fashion shows, the technical festivals form a common platform for students and academicians across the country to meet and showcase research.
