NOTICE

Subject: Integration of United Nations Sustainable Development Goals (SDGs) in PG Programmes (M.Tech, MSc, IMSC, MA, MBA, EMBA, MDes. etc.) – Project Report/Dissertation/Thesis: Regarding

In reference to the subject cited above, the Competent Authority, DTU is pleased to approve integration and mapping of the United Nations Sustainable Development Goals (SDGs) in the PG programmes of DTU, including M.Tech., M.Sc., Integrated M.Sc. (IMSc), M.A., MBA, Executive MBA (EMBA), M.Des. and other relevant PG programmes, wherever a Project Report/Dissertation/Thesis is a prescribed component of the programme.

Accordingly, the SDG mapping shall be incorporated in the Project Report/Dissertation/Thesis of the concerned PG programmes. The mapping shall be research/project-specific, evidence-based and appropriately substantiated, and shall not be treated as a mere formal listing of SDG numbers.

The student, under the guidance of the concerned Supervisor/Project Guide/Faculty Mentor, shall identify the relevant SDG(s) corresponding to the project/dissertation/thesis and indicate the specific relevance, contribution, findings; outcomes and/or practical implications of the work towards the identified SDG(s).

The SDG mapping may appropriately be presented in the following format:

S. No.	SDG (Number/Official Title/Logo)	Relevance to Project Report/Dissertation/Thesis	Strength of Contribution
1.	SDG No. ____ – _____	Clearly indicate the specific project/research component, findings, outcomes and/or practical implications relevant to the identified SDG.	Strong/Moderate/Weak
2.	SDG No. ____ – _____	Clearly indicate the specific project/research component, findings, outcomes and/or practical implications relevant to the identified SDG.	Strong/Moderate/Weak

The following broad guidelines shall be followed:

- The SDG Number, official Title and coloured SDG Logo shall be indicated.
- The relevance of the identified SDG shall be explained with reference to the objectives, methodology, findings, outcomes, applications and/or impact of the project/dissertation/thesis.

Ginku

iii. More than one SDG may be mapped where the work has substantive and demonstrable relevance to multiple SDGs.

iv. Only those SDGs having a meaningful and justifiable linkage with the work shall be mapped. Unsubstantiated or incidental association with an SDG shall be avoided.

v. The Strength of Contribution shall be indicated as Strong, Moderate or Weak, based on the extent, significance and supporting evidence of the contribution towards the identified SDG.

vi. The SDG mapping shall be complementary to and not a substitute for the prescribed "Conclusion, Future Scope and Social Impact" section/chapter, wherever applicable.

The requirement shall be implemented at the appropriate stages of the concerned PG programme, including project/dissertation/thesis proposal, progress/review presentations and final submission, as applicable to the programme structure. The concerned HoD/Head of Centre, Supervisor/Project Guide and Departmental/Programme-level committees may ensure that the SDG mapping is appropriately reviewed and incorporated in the final Project Report/Dissertation/Thesis.

It is further informed that the requirement may be incorporated in the relevant PG academic/research documentation and prescribed formats, wherever applicable, so as to ensure uniformity in implementation across the University.

This issues with the approval of the Competent Authority.

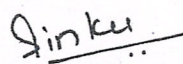

(Prof. Rinku Sharma)
Dean (Academic-PG)
